| 1.   | University Exam:                | As Per Exam Scheme |
| 2.   | Mid Semester Exam:              | As per Exam Scheme |
| 3.   | Continuous internal evaluation: | As per Exam Scheme |
| i.   | PPT & Presentation              | 10                 |
| ii.  | Mid Sem Exam                    | 20                 |
| iii. | Assignments                     | 10                 |
| iv.  | Class Attendance                | 10                 |

**Evaluation**

|    |  |       |  |          |  |  |         |
|----|--|-------|--|----------|--|--|---------|
| 12 |  | 1 Hr. |  | Module 1 | Recap of Module 1                              |  | Lecture |
| 13 |  | 1 Hr. |  | Module 2 | Demand Analysis                                |  | Lecture |
| 14 |  | 1 Hr. |  | Module 2 | Meaning, Types, Demand Curve, Determinants     |  | Lecture |
| 15 |  | 1 Hr. |  | Module 2 | Supply Analysis                                |  | Lecture |
| 16 |  | 1 Hr. |  | Module 2 | Meaning, Determinants of Supply                |  | Lecture |
| 17 |  | 1 Hr. |  | Module 2 | Demand Elasticity                              |  | Lecture |
| 18 |  | 1 Hr. |  | Module 2 | Price, Income & Cross Elasticity               |  | Lecture |
| 19 |  | 1 Hr. |  | Module 2 | Applications of Elasticity                     |  | Lecture |
| 20 |  | 1 Hr. |  | Module 2 | Real-world examples (Pricing, Taxation)        |  | Lecture |
| 21 |  | 1 Hr. |  | Module 2 | Market Equilibrium                             |  | Lecture |
| 22 |  | 1 Hr. |  | Module 2 | Market Equilibrium                             |  | Lecture |
| 23 |  | 1 Hr. |  | Module 2 | Interaction of Demand & Supply                 |  | Lecture |
| 24 |  | 1 Hr. |  | Module 2 | Interaction of Demand & Supply                 |  | Lecture |
| 25 |  | 1 Hr. |  | Module 2 | Recap of Demand-Supply Concepts                |  | Lecture |
| 26 |  | 1 Hr. |  | Module 2 | Revision & Problem Solving                     |  | Lecture |
| 27 |  | 1 Hr. |  | Module 2 | Recap of Module 2                              |  | Lecture |
| 28 |  | 1 Hr. |  | Module 3 | Cost Concepts                                  |  | Lecture |
| 29 |  | 1 Hr. |  | Module 3 | Real Cost, Opportunity Cost, Money Cost        |  | Lecture |
| 30 |  | 1 Hr. |  | Module 3 | Real Cost, Opportunity Cost, Money Cost        |  | Lecture |
| 31 |  | 1 Hr. |  | Module 3 | Short-Run Cost Curves                          |  | Lecture |
| 32 |  | 1 Hr. |  | Module 3 | Short-Run Cost Curves                          |  | Lecture |
| 33 |  | 1 Hr. |  | Module 3 | Fixed, Variable, Average & Marginal Costs      |  | Lecture |
| 34 |  | 1 Hr. |  | Module 3 | Fixed, Variable, Average & Marginal Costs      |  | Lecture |
| 35 |  | 1 Hr. |  | Module 3 | Revenue Analysis                               |  | Lecture |
| 36 |  | 1 Hr. |  | Module 3 | Revenue Analysis                               |  | Lecture |
| 37 |  | 1 Hr. |  | Module 3 | Types of Revenue, AR & MR in Different Markets |  | Lecture |
| 38 |  | 1 Hr. |  | Module 3 | Break-even Analysis                            |  | Lecture |
| 39 |  | 1 Hr. |  | Module 3 | Practical Applications                         |  | Lecture |
| 40 |  | 1 Hr. |  | Module 4 | Macroeconomic Indicators                       |  | Lecture |
| 41 |  | 1 Hr. |  | Module 4 | Inflation: Meaning, Types, Effects             |  | Lecture |
| 42 |  | 1 Hr. |  | Module 4 | Unemployment                                   |  | Lecture |
| 43 |  | 1 Hr. |  | Module 4 | Causes, Types, Economic Effects                |  | Lecture |
| 44 |  | 1 Hr. |  | Module 4 | Business Cycle                                 |  | Lecture |
| 45 |  | 1 Hr. |  | Module 4 | Phases & Features                              |  | Lecture |
| 46 |  | 1 Hr. |  | Module 4 | Phases & Features                              |  | Lecture |

|-----|-------|---------------------|------------------------------|-------------------------------------|--|---------------------------------------|
| 1   | 20/11 | 1 Hour              | Basics of Project Management | Concept and attributes of a project | Understand what a project is and its key attributes              | Lecture with real-life examples       |
| 2   | 21/11 | 1 Hour              | Basics of Project Management | Importance of project management    | Explain the value and relevance of project management            | Interactive discussion                |
| 3   | 22/11 | 1 Hour              | Basics of Project Management | Project management process          | Learn stages and steps in managing a project                     | Lecture + flowchart illustration      |
| 4   | 23/11 | 1 Hour              | Basics of Project Management | Project lifecycle                   | Understand lifecycle phases from initiation to closure           | Diagram-based explanation             |
| 5   | 27/11 | 1 Hour              | Basics of Project Management | Project stakeholders                | Identify different types of stakeholders                         | Group activity on stakeholder mapping |
| 6   | 28/11 | 1 Hour              | Basics of Project Management | Project management structures       | Learn various PM structures like functional, matrix, projectized | Lecture + chart                       |
| 7   | 29/11 | 1 Hour              | Basics of Project Management | Choosing appropriate structure      | Evaluate the right structure for a given scenario                | Case study discussion                 |
| 8   | 30/11 | 1 Hour              | Basics of Project Management | Organizational culture implications | Understand how culture affects project execution                 | Real-life case sharing                |
| 9   | 3/12  | 1 Hour              | Basics of Project Management | Main causes of project failure      | Identify reasons for failure                                     | Class discussion + examples           |

## SWARRNIM SRATUP AND INNOVATION UNIVERSITY

|    |      |        |                              |   |  |                              |
|----|------|--------|------------------------------|---|--|------------------------------|
| 10 | 4/2  | 1 Hour | Basics of Project Management | Defining scope, setting priorities            | Learn how to set scope and prioritize effectively        | Lecture + worksheet          |
| 11 | 5/2  | 1 Hour | Basics of Project Management | Work Breakdown Structure (WBS)                | Understand and create WBS                                | Activity-based session       |
| 12 | 6/2  | 1 Hour | Basics of Project Management | Integrating WBS with organization             | Learn alignment between WBS and organizational structure | Whiteboard illustration      |
| 13 | 10/2 | 1 Hour | Basics of Project Management | Coding the WBS for MIS                        | Learn coding systems in WBS for tracking                 | Lecture + coding task        |
| 14 | 11/2 | 1 Hour | Basics of Project Management | Project roll-up, PBS, Responsibility Matrices | Understand responsibility assignment                     | Interactive demonstration    |
| 15 | 12/2 | 1 Hour | Basics of Project Management | Project Identification                        | Techniques for identifying potential projects            | Brainstorming session        |
| 16 | 13/2 | 1 Hour | Basics of Project Management | Product selection and market identification   | Learn idea validation process                            | Worksheet-based learning     |
| 17 | 16/2 | 1 Hour | Basics of Project Management | Feasibility study preparation                 | Know how to prepare a feasibility report                 | Lecture + sample analysis    |
| 18 | 21/2 | 1 Hour | Basics of Project Management | Legal aspects and site selection              | Understand legal and locational factors                  | Case study method            |
| 19 | 25/2 | 1 Hour | Project Planning             | Factors influencing estimates                 | Know what impacts cost/time estimates                    | Lecture + student discussion |
| 20 | 27/2 | 1 Hour | Project Planning             | Estimation guidelines                         | Learn industry estimation standards                      | Teaching with examples       |
| 21 | 3/3  | 1 Hour | Project Planning             | Macro vs Micro estimating                     | Understand the difference and applications               | Comparison chart activity    |
| 22 | 5/3  | 1 Hour | Project Planning             | Estimating methods                            | Learn various project estimating methods                 | Role-play technique          |
| 23 | 6/3  | 1 Hour | Project Planning             | Budget development                            | Learn to prepare project budgets                         | Spreadsheet exercise         |
| 24 | 10/3 | 1 Hour | Project Planning             | Types of costs                                | Learn direct/indirect/fixed/variable costs               | Lecture + chart formation    |

## SWARRNIM SRATUP AND INNOVATION UNIVERSITY

|    |      |        |                    |                                 |  |                               |
|----|------|--------|--------------------|---------------------------------|--|-------------------------------|
| 25 | 11/3 | 1 Hour | Project Planning   | Contingency funds               | Understand risk buffers and financial planning | Lecture + activity            |
| 26 | 12/3 | 1 Hour | Project Planning   | Project network                 | Learn the basics of project network diagrams   | Diagram creation exercise     |
| 27 | 12/3 | 1 Hour | Project Planning   | Work Package to Network         | Translate work package into network format     | Flowchart practice            |
| 28 | 18/3 | 1 Hour | Project Planning   | Network construction            | Create a complete project network              | Step-by-step practical task   |
| 29 | 19/3 | 1 Hour | Project Planning   | Forward and backward pass       | Learn scheduling calculations                  | Classroom exercise            |
| 30 | 20/3 | 1 Hour | Project Planning   | Activity level detail           | Set activity durations and levels              | Lecture + example analysis    |
| 31 | 24/3 | 1 Hour | Project Planning   | Extended network techniques     | Explore advanced scheduling tools              | Tool-based demonstration      |
| 32 | 25/3 | 1 Hour | Project Scheduling | Project constraints             | Identify and manage scheduling limits          | Lecture + discussion          |
| 33 | 26/3 | 1 Hour | Project Scheduling | Scheduling problems             | Recognize different scheduling issues          | Problem-solving activity      |
| 34 | 27/3 | 1 Hour | Project Scheduling | Resource allocation             | Learn methods for efficient resource use       | Case-based session            |
| 35 | 7/4  | 1 Hour | Project Scheduling | Splitting and multitasking      | Learn task splitting techniques                | Live demonstration            |
| 36 | 8/4  | 1 Hour | Project Scheduling | Resource scheduling             | Master resource scheduling in multi projects   | Lecture with tool demo        |
| 37 | 9/4  | 1 Hour | Project Scheduling | Reducing duration               | Learn methods to shorten project timelines     | Cost-duration trade-off chart |
| 38 | 10/4 | 1 Hour | Project Scheduling | Accelerating project completion | Explore strategies to fast-track tasks         | Brainstorming and planning    |
| 39 | 11/4 | 1 Hour | Project Scheduling | Cost-duration graph             | Construct and interpret the graph              | Graph exercise                |
| 40 | 21/9 | 1 Hour | Project Scheduling | Practical issues                | Manage real-life scheduling problems           | Group problem-solving         |

| 18/4 | 1 Hr. | Career                 | class presentation/discussion     |  | Lecture |  |  |
| 22/4 | 1 Hr. | Management Development | concept of management development |  | Lecture |  |  |
| 24/4 | 1 Hr. | Management Development | concept of management development |  | Lecture |  |  |
| 25/4 | 1 Hr. | Management Development | need of MDP                       |  | Lecture |  |  |
| 29/4 | 1 Hr. | Management Development | importance of MDP                 |  | Lecture |  |  |
| 1/5  | 1 Hr. | Management Development | process of MDP                    |  | Lecture |  |  |
| 2/5  | 1 Hr. | Management Development | process of MDP                    |  | Lecture |  |  |

|    |         |       |  |          |   |  |         |
|----|---------|-------|--|----------|---|--|---------|
| 12 | 29-1-25 | Hr.   |  | Module 2 | Joint Sector Management: Concept and Importance |  | Lecture |
| 13 | 3-2-25  | Hr.   |  | Module 2 | Joint Sector Management: Concept and Importance |  | Lecture |
| 14 | 4-2-25  | 1 Hr. |  | Module 3 | Role of Public and Private Sectors in Joint     |  | Lecture |
| 15 | 5-2-25  | 1 Hr. |  | Module 3 | Role of Public and Private Sectors in Joint     |  | Lecture |
| 16 | 16-2-25 | 1 Hr. |  | Module 3 | Case Studies of Joint Sector Enterprises        |  | Lecture |
| 17 | 11-2-25 | 1 Hr. |  | Module 3 | Challenges in Joint Sector Management           |  | Lecture |
| 18 | 12-2-25 | 1 Hr. |  | Module 3 | Meaning of Development: Growth vs. Development  |  | Lecture |
| 19 | 13-2-25 | 1 Hr. |  | Module 3 | Human Development Index (HDI) and Gender        |  | Lecture |
| 20 | 18-2-25 | 1 Hr. |  | Module 3 | Human Development Index (HDI) and Gender        |  | Lecture |
| 21 | 19-2-25 | 1 Hr. |  | Module 4 | Sen's Capabilities Approach                     |  | Lecture |
| 22 | 20-2-25 | 1 Hr. |  | Module 4 | Environmental Sustainability and Development    |  | Lecture |
| 23 | 25-2-25 | 1 Hr. |  | Module 4 | Market and State as Agencies of Development     |  | Lecture |
| 24 | 26-2-25 | 1 Hr. |  | Module 4 | Market and State as Agencies of Development     |  | Lecture |
| 25 | 3-3-25  | 1 Hr. |  | Module 4 | Market and State as Agencies of Development     |  | Lecture |
| 26 | 4-3-25  | 1 Hr. |  | Module 4 | Underdevelopment as Coordination Failure        |  | Lecture |
| 27 | 5-3-25  | 1 Hr. |  | Module 4 | Underdevelopment as Coordination Failure        |  | Lecture |
| 28 | 16-3-25 | 1 Hr. |  | Module 4 | Classical Theories: Rostow's Stages of Growth   |  | Lecture |
| 29 | 11-3-25 | 1 Hr. |  | Module 4 | Classical Theories: Rostow's Stages of Growth   |  | Lecture |
| 30 | 12-3-25 | 1 Hr. |  | Module 4 | Harrod-Domar Growth Model                       |  | Lecture |
| 31 | 13-3-25 | 1 Hr. |  | Module 4 | Harrod-Domar Growth Model                       |  | Lecture |
| 32 | 18-3-25 | 1 Hr. |  | Module 4 | Lewis' Model of Unlimited Labour Supply         |  | Lecture |
| 33 | 19-3-25 | 1 Hr. |  | Module 4 | Lewis' Model of Unlimited Labour Supply         |  | Lecture |
| 34 | 24-3-25 | 1 Hr. |  | Module 4 | Solow's Growth Theory                           |  | Lecture |
| 35 | 25-3-25 | 1 Hr. |  | Module 4 | Solow's Growth Theory                           |  | Lecture |
| 36 | 31-3-25 | 1 Hr. |  | Module 4 | Contemporary Models: Endogenous Growth          |  | Lecture |
| 37 | 6-4-25  | 1 Hr. |  | Module 4 | Underdevelopment as Coordination Failure        |  | Lecture |
| 38 | 7-4-25  | 1 Hr. |  | Module 4 | Big Push Theory and Critical Minimum Efforts    |  | Lecture |
| 39 | 8-4-25  | 1 Hr. |  | Module 4 | Industry Examples, Guest Lectures, Projects     |  | Lecture |
| 40 | 9-4-25  | 1 Hr. |  | Module 4 | Recap of Units I-IV, Doubt Clearing, Quizzes    |  | Lecture |

| 8       | 04/10 | 1 Hr.               |              | Module 1        | Types of process designs                            |                             | Lecture                        |
| 9       | 05/10 | 1 Hr.               |              | Module 1        | Production Planning                                 |                             | Lecture                        |
| 10      | 06/10 | 1 Hr.               |              | Module 1        | Basic functions: routing, scheduling, loading       |                             | Lecture                        |
| 11      | 07/10 | 1 Hr.               |              | Module 1        | Production Control                                  |                             | Lecture                        |
| 12      | 08/10 | 1 Hr.               |              | Module 1        | Process Technologies                                |                             | Lecture                        |

|    |          |       |  |          |  |  |         |
|----|----------|-------|--|----------|--|--|---------|
| 13 | 18/11    | 1 Hr. |  | Module 1 | Life Cycle Interrelationships                        |  | Lecture |
| 14 | 19/11    | 1 Hr. |  | Module 1 | Review & Case Study                                  |  | Lecture |
| 15 | 20/11    | 1 Hr. |  | Module 2 | Aggregate Planning                                   |  | Lecture |
| 16 | 21/11    | 1 Hr. |  | Module 2 | Techniques: Chase, Level, Hybrid                     |  | Lecture |
| 17 | 25/11    | 1 Hr. |  | Module 2 | Operations Scheduling                                |  | Lecture |
| 18 | 26/11    | 1 Hr. |  | Module 2 | Product Sequencing                                   |  | Lecture |
| 19 | 27/11    | 1 Hr. |  | Module 2 | Sequencing Techniques                                |  | Lecture |
| 20 | 28/11    | 1 Hr. |  | Module 2 | Line Balancing: Concepts, methods of balancing       |  | Lecture |
| 21 | 2/12     | 1 Hr. |  | Module 2 | Plant Capacity: Concepts, short/long term capacity   |  | Lecture |
| 22 | 3/12     | 1 Hr. |  | Module 2 | Plant Layout: Layout types – process, product, fixed |  | Lecture |
| 23 | 4/12     | 1 Hr. |  | Module 2 | Facility Location: Location factors, analysis models |  | Lecture |
| 24 | 5/12     | 1 Hr. |  | Module 2 | Maintenance Management : Meaning, need, types        |  | Lecture |
| 25 | 7/12     | 1 Hr. |  | Module 2 | Reliability Concepts: MTBF, MTTR, failure rate       |  | Lecture |
| 26 | 10/12    | 1 Hr. |  | Module 3 | Replacement Policies                                 |  | Lecture |
| 27 | 11/12    | 1 Hr. |  | Module 3 | Preventive Maintenance                               |  | Lecture |
| 28 | 15/12    | 1 Hr. |  | Module 3 | Breakdown Maintenance                                |  | Lecture |
| 29 | 17/12    | 1 Hr. |  | Module 3 | Integrated Review                                    |  | Lecture |
| 30 | 18/12    | 1 Hr. |  | Module 3 | Standards and Specifications                         |  | Lecture |
| 31 | 21/12    | 1 Hr. |  | Module 3 | Quality Assurance                                    |  | Lecture |
| 32 | 23/12    | 1 Hr. |  | Module 3 | Statistical Quality Control                          |  | Lecture |
| 33 | 24/12    | 1 Hr. |  | Module 3 | Control Charts for Variables                         |  | Lecture |
| 34 | 25/12    | 1 Hr. |  | Module 3 | Average, range, SD charts                            |  | Lecture |
| 35 | 26/12    | 1 Hr. |  | Module 3 | Control Charts for Attributes                        |  | Lecture |
| 36 | 01/01/23 | 1 Hr. |  | Module 3 | Acceptance Sampling                                  |  | Lecture |
| 37 | 02/01/23 | 1 Hr. |  | Module 3 | Introduction to Work Study                           |  | Lecture |
| 38 | 03/01/23 | 1 Hr. |  | Module 3 | Methods Study Techniques                             |  | Lecture |
| 39 | 03/11    | 1 Hr. |  | Module 3 | Work Measurement Methods                             |  | Lecture |
| 40 | 05/11    | 1 Hr. |  | Module 3 | Allowances & Allowed Time                            |  | Lecture |
| 41 | 08/11    | 1 Hr. |  | Module 3 | Review & Problem Solving                             |  | Lecture |
| 42 | 09/11    | 1 Hr. |  | Module 4 | EOQ & Inventory Models                               |  | Lecture |
| 43 | 10/11    | 1 Hr. |  | Module 4 | MRP & MRP-II   |  | Lecture |
| 44 | 14/11    | 1 Hr. |  | Module 4 | Inventory Control Systems                            |  | Lecture |
| 45 | 18/11    | 1 Hr. |  | Module 4 | Value Analysis: Stores Management & Review           |  | Lecture |

## SESSION PLANNING –

The Planner to be maintained as per under mentioned perform:

|   |   |  |           |   |   |              |
|---|---|--|-----------|---|---|--------------|
| Name of Subject<br>Teacher/s              |   | Dr. Savitri Chabedi<br>Ms. Dhanashri Surendra        |           | Name of Institute   | School of Management, Commerce and Liberal Arts |              |

| 19 | 8/1/2  | 1 Hr. | Concept of time value of money | Compound Value of an Annuity,        | Apply formulas to compute various time value of money scenarios       |
| 20 | 9/1/2  | 1 Hr. | Concept of time value of money | Compound Value of an Annuity,        | Apply formulas to compute various time value of money scenarios       |
| 21 | 2/2/2  | 1 Hr. | Concept of time value of money | Compound Value of an Annuity,        | Grasp the concept and calculations related to the time value of money |
| 22 | 2/2/2  | 1 Hr. | Concept of time value of money | Present Value of an Annuity          | Grasp the concept and calculations related to the time value of money |
| 23 | 28/2   | 1 Hr. | Concept of time value of money | Revision of unit                     | Understanding topics  |
| 24 | 3/3    | 1 Hr. | Concept of time value of money | Revision of unit                     | Understanding topics  |
| 25 | 6/3    | 1 Hr. | Concept of time value of money | Discussion of questions answers      | Understanding Answers   |
| 26 | 7/3    | 1 Hr. | Capital Budgeting              | Characteristics of Capital Budgeting | Understand the basics of capital budgeting                            |
| 27 | 10/3/B | 1 Hr. | Capital Budgeting              | Internal Rate of Return Method       | Learn to evaluate projects using IRR method                           |
| 28 | 11/3/B | 1 Hr. | Capital Budgeting              | Internal Rate of Return Method       | Learn to evaluate projects using IRR method                           |
| 29 | 17/3   | 1 Hr. | Capital Budgeting              | Profitability Index,                 | Understand and apply various project evaluation techniques            |
| 30 | 18/3   | 1 Hr. | Capital Budgeting              | Payback Period                       | Understand and apply various project evaluation techniques            |
| 31 | 20/3   | 1 Hr. | Capital Budgeting              | Discounted Payback Period            | Understand and apply various project evaluation techniques            |
| 32 | 21/3   | 1 Hr. | Capital Budgeting              | Accounting Rate of Return Method     | Analyze different capital budgeting methods and their applicability   |
| 33 | 24/3   | 1 Hr. | Capital Budgeting              | Comparison between NPV and IRR       | Analyze different capital budgeting methods and their applicability   |
| 34 | 25/3   | 1 Hr. | Capital Budgeting              | Principles of Working Capital,       | Understand the components and management of working capital           |

|    |      |       |   |   |   |                              |
|----|------|-------|---|---|---|------------------------------|
| 35 | 27/3 | 1 Hr. | <b>Capital Budgeting</b>                | Working Capital Cycle, Determinants of Working Capital                                | Understand the components and management of working capital | Lecture, Interactive Session |
| 36 | 1/4  | 1 Hr. | <b>Capital Budgeting</b>                | Determinants of Working Capital   | Understand the components and management of working capital | Lecture, Interactive Session |
| 37 | 3/4  | 1 Hr. | <b>Working Capital Management</b>       | Principles of Working Capital,  | Understand the components and management of working capital | Lecture, Interactive Session |
| 38 | 4/4  | 1 Hr. | <b>Working Capital Management</b>       | Working Capital Cycle, Determinants of Working Capital                                | Understand the components and management of working capital | Lecture, Interactive Session |
| 39 | 7/4  | 1 Hr. | <b>Working Capital Management</b>       | Determinants of Working Capital   | Understand the components and management of working capital | Lecture, Interactive Session |
| 40 | 8/4  | 1 Hr. | <b>Working Capital Management</b>       | Principles of Working Capital, Working Capital Cycle, Determinants of Working Capital | Understand the components and management of working capital | Lecture, Interactive Session |
| 41 | 11/4 | 1 Hr. | <b>Working Capital Management</b>       | Working Capital Cycle,  | Understand the components and management of working capital | Lecture, Interactive Session |
| 42 | 17/4 | 1 Hr. | <b>Working Capital Management</b>       | Determinants of Working Capital   | Understand the components and management of working capital | Lecture, Interactive Session |
| 43 | 21/4 | 1 Hr. | <b>Working Capital Management</b>       | Cash Management Techniques:   | Learn techniques for effective cash management              | Lecture, Examples            |
| 44 | 22/4 | 1 Hr. | <b>Working Capital Management</b>       | Managing Cash Inflows and Outflows  | Learn techniques for effective cash management              | Lecture, Examples            |
| 45 | 24/4 | 1 Hr. | <b>Working Capital Management</b>       | Receivable Management:  | Learn about managing receivables effectively                | Lecture, Discussion          |
| 46 | 25/4 | 1 Hr. | <b>Working Capital Management</b>       | Techniques and Importance   | Learn about managing receivables effectively                | Lecture, Discussion          |
| 47 | 26/4 | 1 Hr. | <b>Working Capital Management</b>       | Sources of Working Capital Management   | Identify various sources for managing working capital       | Lecture, Examples            |
| 48 | 29/4 | 1 Hr. | <b>Working Capital Management</b>       | Revision of Unit  | Understanding topic   | Interactive Session          |
| 49 | 1/5  | 1 Hr. | <b>Leverage &amp; Capital Structure</b> | Financial and Operating Leverage: Concepts and Measures                               | Understand different types of leverage implications         | Lecture and Discussion       |
| 50 | 2/5  | 1 Hr. | <b>Leverage &amp; Capital Structure</b> | Financial and Operating Leverage: Concepts and Measures                               | Lecture, Numerical Problems                                 | Lecture, Discussion          |

### Module 2

#### Revision

Past Mid Sem Paper Discussion

Case-let discussion

Concept of Work Design and Work Systems

Strategic approach to Management Structure

What Workers Do, What Workers Need

How Jobs Interface with Other Jobs

Strategic Redesign of Work Systems

Strategic Redesign of Work Systems

Outsourcing and Offshoring

Mergers and Acquisitions

HR Issues and Challenges Related to Technology

Telework, Employee Surveillance and Monitoring

e-HR, Social Networking

Understanding Change

Managing Change

Case-Let

Revision

University Paper and Submission Discussion

Concept of Performance Management

Who Evaluates, What to Evaluate

How to Evaluate

How to Evaluate

Challenges to Performance Management Systems

Making PMS Effective

|  |      |       |                              |  |   |
| 5  | 28/1 | 1 Hr. | Basics of Project Management | Factors affecting structure selection      | Apply structure strategies              |
| 6  | 31/1 | 1 Hr. | Basics of Project Management | Culture types, impact on project execution | Understand how culture influences PM    |
| 7  | 3/2  | 1 Hr. | Basics of Project Management | top reasons for failure                    | Evaluate critical risk/failure points   |
| 8  | 4/2  | 1 Hr. | Basics of Project Management | Problem statement, goals, deliverable      | Lecture + Real-life Examples            |
| 9  | 7/2  | 1 Hr. | Basics of Project Management | Setting clear scope, managing trade-offs   | Define a project effectively            |
| 10   | 10/2 | 1 Hr. | Basics of Project Management | WBS hierarchy, components                  | Define and manage project scope         |
| 11   | 11/2 | 1 Hr. | Basics of Project Management | Linking WBS to organization structure      | Construct WBS for a sample project      |
| 12   | 14/2 | 1 Hr. | Basics of Project Management | WBS codes for data management              | Align WBS with organizational levels    |
| 13   | 17/2 | 1 Hr. | Basics of Project Management | Process Breakdown Structure, WBS roll-up   | Design an information structure         |
| 14   | 18/2 | 1 Hr. | Basics of Project Management | Creating RAM / RACI matrix                 | Build hierarchical PBS                  |
| 15   | 21/2 | 1 Hr. | Basics of Project Management | Problem/need recognition                   | Assign project roles & responsibilities |
| 16   | 3/3  | 1 Hr. | Basics of Project Management |  | Identify project opportunities          |

|    |      |          |  | Target market, competitor analysis               | Topic                                 | Workshop                           |
|----|------|----------|--|--|---------------------------------------|------------------------------------|
|    | Date | Duration | Subject  | Content  | Activity                              | Method                             |
| 17 | 4/3  | 1 Hr.    | Basics of Project Management                       | Techno-economic feasibility                      | Create feasibility documents          | Lecture + Template Practice        |
| 18 | 7/3  | 1 Hr.    | Basics of Project Management                       | Defining structure, content of project report    | Draft a project proposal              | Role play and case                 |
| 19 | 10/3 | 1 Hr.    | Basics of Project Management                       | Site selection criteria, analysis tools          | Evaluate and select ideal site        | Guest Lecture                      |
| 20 | 11/3 | 1 Hr.    | Basics of Project Management                       | Legal clearances, zoning, environment            | Understand legal framework            | Lecture + Estimation Quiz workshop |
| 21 | 17/3 | 1 Hr.    | Project Planning - Estimating Project Times & Cost | Quality of estimates, influencing factors        | Make realistic project estimates      | workshop                           |
| 22 | 18/3 | 1 Hr.    | Project Planning - Estimating Project Times & Cost | Estimation methods (analogous, parametric, etc.) | Use estimation tools and techniques   | Group Comparison Task              |
| 23 | 21/3 | 1 Hr.    | Project Planning - Estimating Project Times & Cost | Advantages/disadvantages                         | Apply appropriate level of estimation |                                    |
| 24 | 24/3 | 1 Hr.    | Project Planning - Estimating Project Times & Cost | Types of cost, budget development                | Design initial project budget         | lecture                            |
| 25 | 25/3 | 1 Hr.    | Project Planning - Estimating Project Times & Cost | Work Packages to Network                         | Build project schedules               | lecture                            |
| 26 | 26/3 | 1 Hr.    | Project Planning - Estimating Project Times & Cost | Activity-on-Node, logic relationships            | Create AON diagrams                   | lecture                            |
| 27 | 1/4  | 1 Hr.    | Project Planning - Estimating Project Times & Cost | Calculating early/late start/finish              | Perform time calculations             | lecture                            |
| 28 | 4/4  | 1 Hr.    | Project Planning - Estimating Project Times & Cost | Slack, float, total project tim                  | Identify critical path                | lecture                            |
| 29 | 4/4  | 1 Hr.    | Project Planning - Estimating Project Times & Cost |  |                                       |                                    |

**Swarnim Startup & Innovation University**  
**Swarnim Science College**  
**Lesson Planning of Lectures**

Academic Year: 2024-25  
 Semester: I  
 Subject Faculty: Prem Prajapati

Department: Physics  
 Course: Vector, Waves & Ultrasonics  
 Course Code: BSC230119 (Minor)

| Sr. No                              | Topic Name  | CO      | Planned Date | Actual Date | Teaching Aid | Name of Faculty | Sign | Remarks  |
|-------------------------------------|---|---------|--------------|-------------|--------------|-----------------|------|--|
| <b>Module 1</b> Vector Analysis     |   |         |              |             |              |                 |      |  |
| 1                                   | Introduction to Vector & Scalars, With Example                                  | 1       | 10-09-2024   | 10/9/24     | 2            | PM              | PJ   |  |
| 2                                   | Applications of Vector Multiplication   | 1       | 11-09-2024   | 11/9/24     | 2            | PM              | PJ   |  |
| 3                                   | Triple Scalar Product   | 1       | 13-09-2024   | 13/9/24     | 2            | PM              | PJ   |  |
| 4                                   | Triple Vector Product   | 1       | 17-09-2024   | 17/9/24     | 2            | PM              | PJ   | practical demonstration of Triple Scalar Product with Physical shapes. |
| 5                                   | Differentiation of Vectors  | 2       | 18-09-2024   | 20/9/24     | 2            | PM              | PJ   |  |
| 6                                   | Introduction to fields and Basics of Intergration & Derivation                  | 2       | 20-09-2024   | 20/9/24     | 2            | PM              | PJ   |  |
| 7                                   | Directional Derivative, Gradient some other expressions involving $\nabla$      | 2       | 24-09-2024   | 24/9/24     | 2            | PM              | PJ   |  |
| 8                                   | Green's Theorem in the plane  | 3       | 25-09-2024   | 25/9/24     | 2            | PM              | PJ   |  |
| 9                                   | The Divergence and the Divergence theorem.                                      | 3       | 27-09-2024   | 27/9/24     | 2            | PM              | PJ   |  |
| 10                                  | Gauss's law with Example  | 3       | 01-10-2024   | 1/10/24     | 2            | PM              | PJ   |  |
| 11                                  | The curl and Stoke's theorem.   | 3       | 04-10-2024   | 4/10/24     | 2            | PM              | PJ   | Explain with source-side Theory of curl and Stoke's Theorem            |
| 12                                  | Problem Solving -1  | 1, 2, 3 | 08-10-2024   | 8/10/24     | 2            | PM              | PJ   |  |
| 13                                  | Problem Solving -2  | 1, 2, 3 | 09-10-2024   | 9/10/24     | 2            | PM              | PJ   |  |
| 14                                  | Problem Solving -3  | 1, 2, 3 | 11-10-2024   | 11/10/24    | 2            | PM              | PJ   |  |
| 15                                  | Problem Solving -4  | 1, 2, 3 | 15-10-2024   | 15/10/24    | 2            | PM              | PJ   |  |
| <b>Module 2</b> Waves & Ultrasonics |   |         |              |             |              |                 |      |  |
| 16                                  | Introduction to Travelling Waves  | 4       | 16-10-2024   | 16/10/24    | 2, 1         | PM              | PJ   |  |
| 17                                  | Speed of propagation of waves in a stretched string longitudinal waves in a bar | 4       | 18-10-2024   | 18/10/24    | 2, 1         | PM              | PJ   |  |
| 18                                  | Plane waves in a fluid, transmission of energy by a traveling wave.             | 4       | 22-10-2024   | 22/10/24    | 2, 1         | PM              | PJ   |  |
| 19                                  | Introduction to Sound Waves   | 5       | 23-10-2024   | 23/10/24    | 2, 1         | PM              | PJ   | visited the YouTube's room   |
| 20                                  | Intensity, Intensity level, Pitch radiation from a piston,                      | 5       | 25-10-2024   | 25/10/24    | 2, 1         | PM              | PJ   | Soft padding to Absorb the sound                                       |
| 21                                  | Radiation efficiency of a sound source  | 5       | 12-11-2024   | 12/11/24    | 2, 1         | PM              | PJ   |  |
| 22                                  | Newton's and Langrang correction  | 5       | 13-11-2024   | 13/11/24    | 2, 1         | PM              | PJ   |  |

| Lec. No. | TOPIC   | Planned Date | Actual Date | Name of Faculty | Remark |
|----------|---|--------------|-------------|-----------------|--------|
|          | <b>UNIT : 1 Carbohydrates &amp; Purine and Pyrimidines</b>                      |              |             |                 |        |
| 1        | Introduction to Disaccharides: Classification and Properties                    | 16/07/24     | 16-7-24     |                 |        |
| 2        | Structural and Functional Study of Cellulose                                    | 18/07/24     | 18-7-24     |                 |        |
| 3        | Structure and Characteristics of (+) Cellobiose                                 | 19/07/24     | 19-7-24     |                 |        |
| 4        | Structure and Characteristics of (+) Lactose and maltose                        | 23/07/24     | 23-7-24     |                 |        |
| 5        | Structure and Characteristics of (+) Sucrose                                    | 25/07/24     | 25-7-24     |                 |        |
| 6        | Introduction to Polysaccharides and Their Biological Roles                      | 26/07/24     | 26-7-24     |                 |        |
| 7        | Structural and Functional Study of Starch and cellulose                         | 26/07/24     | 26-7-24     |                 |        |
| 8        | Synthesis and Applications of Pyrimidines: Uracil, Thymine, Cytosine            | 30/07/24     | 30-7-24     |                 |        |
|          | <b>UNIT : 2 Nucleophilic Substitution at a Saturated Carbon Atom</b>            |              |             |                 |        |
| 1        | SN1 and SN2 Reaction Mechanisms: Fundamentals                                   | 15/08/24     | 15-8-24     |                 |        |
| 2        | Orientation in E1 and E2 Reactions: Saytzeff and Hofmann Rules                  | 16/08/24     | 16-8-24     |                 |        |
| 3        | Stereochemistry of SN1 and SN2 Reactions  | 18/08/24     | 18-8-24     |                 |        |
| 4        | Factors Affecting Nucleophilic Substitution: Substrate, Solvent, Nucleophile    | 22/08/24     | 22-8-24     |                 |        |
| 5        | Relative Reactivity and Leaving Group Effects in Substitution                   | 23/08/24     | 23-8-24     |                 |        |
| 6        | Internal Nucleophilic Substitution: SNi Mechanism                               | 24/08/24     | 24-8-24     |                 |        |
| 7        | Neighboring Group Participation in Substitution Reactions                       | 25/08/24     | 25-8-24     |                 |        |
| 8        | E1 Mechanism: Formation and Stability of Carbocations                           | 29/08/24     | 29-8-24     |                 |        |
| 9        | E2 Mechanism: One-Step Elimination and Anti-Periplanar Geometry                 | 30/08/24     | 30-8-24     |                 |        |
| 10       | Orientation in E1 and E2 Reactions: Saytzeff and Hofmann Rules                  | 31/08/24     | 31-8-24     |                 |        |
|          | <b>UNIT :3 Inorganic reagents for Organic synthesis</b>                         |              |             |                 |        |
| 1        | Aluminium Isopropoxide in Organic Synthesis: Meerwein-Ponndorf-Verley Reduction | 17/09/24     | 17-9-24     |                 |        |
| 2        | Lithium Aluminium Hydride: Reduction of Functional Groups                       | 18/09/24     | 18-9-24     |                 |        |
| 3        | Adams's Catalyst (PtO <sub>2</sub> ): Hydrogenation Reactions                   | 19/09/24     | 19-9-24     |                 |        |
| 4        | Selenium Dioxide: Allylic Oxidation Mechanism                                   | 20/09/24     | 20-9-24     |                 |        |
| 5        | Osmium Tetroxide: Syn Dihydroxylation of Alkenes                                | 24/09/24     | 24-9-24     |                 |        |
| 6        | Lead Tetraacetate: Oxidative Cleavage of Diols                                  | 25/09/24     | 25-9-24     |                 |        |
| 7        | Wolff Rearrangement: Mechanism and Synthetic Applications                       | 26/09/24     | 26-9-24     |                 |        |
| 8        | Fries Migration Reaction: Mechanism and Synthetic Relevance                     | 27/09/24     | 27-9-24     |                 |        |
| 9        | Hoffmann Rearrangement: Amide to Amine Conversion                               | 01/10/24     | 1/10/24     |                 |        |
|          | Viscosity and Osmotic pressure method and Light scattering method.              | 03/10/24     | 3/10/24     |                 |        |
|          | <b>UNIT :4 Stereo Chemistry</b>   |              |             |                 |        |
| 1        | Optical Activity Without Chiral Centers: Concept and Examples                   | 07/10/24     | 7-10-24     |                 |        |
| 2        | Biphenyls as Chiral Molecules: Conditions and Stereochemistry                   | 08/10/24     | 8/10/24     |                 |        |
| 3        | Chirality in Allenes: Optical Activity and Structure                            | 14/10/24     | 14-10-24    |                 |        |
| 4        | Spirans: Optical Isomerism and Molecular Structure                              | 15/10/24     | 15-10-24    |                 |        |
| 5        | Diastereomers: Definition, Examples, and Properties                             | 16/10/24     | 16-10-24    |                 |        |
| 6        | Meso Compounds: Identification and Symmetry Considerations                      | 21/10/24     | 21-10-24    |                 |        |
| 7        | Stereoselectivity vs. Stereospecificity: Key Differences and Examples           | 21/10/24     | 21-10-24    |                 |        |
