

Activity Type	Public Lecture		
Date	02 January 2020	Duration days	01
Semester	1-10	No. of Participants	100
Name of Organization	Arvind Patel Institute of Environmental Design		
Name of Workshop	Creative Design Thinking and Innovation		
Conducted by:	Prof. Akshay Anand, Associate Professor		
Faculty contact details	akshayanand.arch@swarnnim.edu.in	Sponsorship amount:	Funded by host.

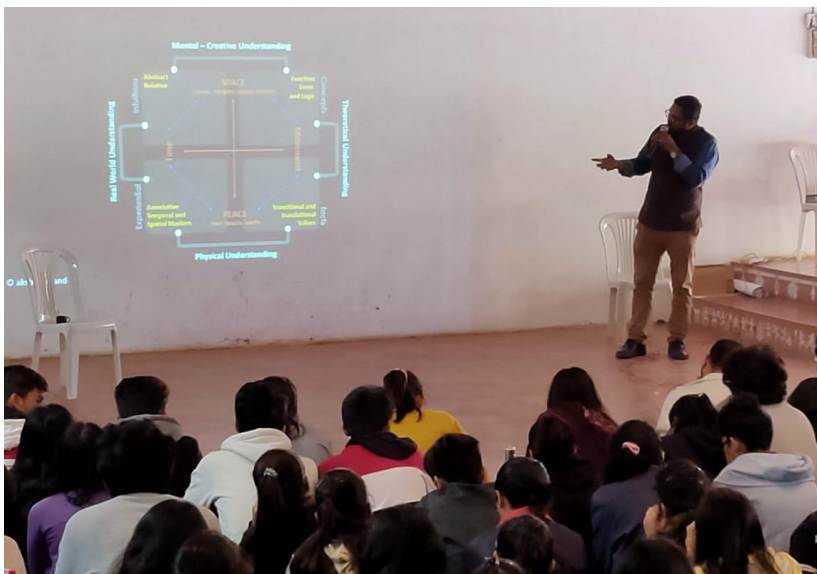

About the Event

The public lecture was aimed to develop cross-institutional learnings and exposure to innovative creative design thinking and innovation. The presentation highlighted how we conduct design studio at Swarnnim Institute of Design, SSIU. Following key aspects mentioned below were discussed:

1. Innovative Practices in Design Education
2. Inculcate design discipline methodologies
3. Augmentation of Creative process which lead to innovation
4. Alternative frameworks of design learning and approach

The approach which is practiced at Swarnnim Institute of Design, SSIU was also explained with projects. The need to augment creative design thinking in architecture was given stress, and importance and need of developing framework and approach to design which leads to innovation was discussed.

Industry Visit Fashion Design

Apparel Manufacturing Industry

Guided by: Nirali Doshi

05-Mar-20

Brief:

To expand the practical knowledge by implementing theoretical as well as practical knowledge taught in the classroom through the factory visiting program that would make a student to enhance their skills. This visit not only increases the knowledge but also give the clear understanding and idea about organizational activities before entering into an organization. Swarnim Start-up and Innovation University is one of the reputed university in Ahmedabad, has designed the curriculum of Production and Operation Management course such way that develop our industrial knowledge. After completing the course of Pattern Making, Garment Construction and Garment Manufacturing Technology through all the semesters, students' need to go for further in the factory visiting programs in a commercial organization. From this visiting program students get the opportunity to learn facing the real challenges as well as the actual working patterns of apparel industry in real business world.

Objectives:

The objectives of this visit are as follows:

- The primary objective of this visit is to explore the production procedure of Apparel Manufacturing Unit.
- To find an overview of the company activities.
- To gather practical knowledge of product processing.
- To achieve idea about knit garments manufacturing industries.
- To know about management and technical process of Apparel industry.
- Comparison between class room learning and practical learning.
- Regularly behavioral theory practice in garments industry.
- To identify merchandising and total production system.
- To know about employee satisfaction.

Methodology:

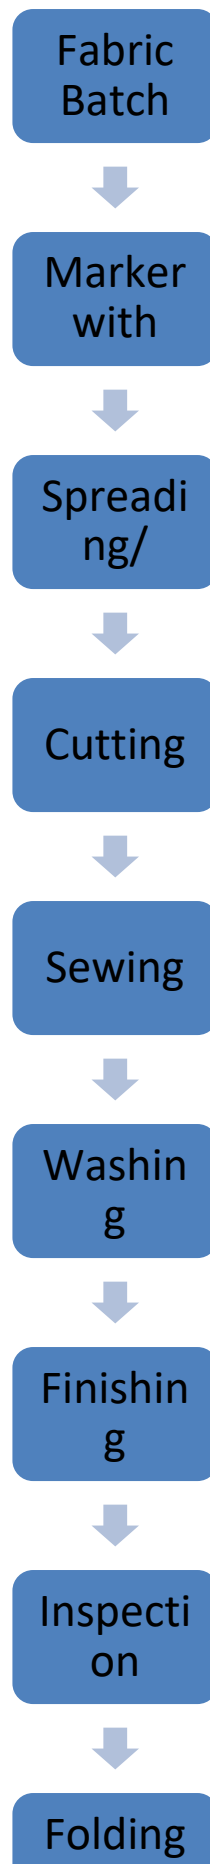

While conducting the visit, sources were explored for primary information and data. But hardly any updated data could be found. In the absence of updated information or data dependence on secondary has been inevitable. However, wherever possibly primary data has been used. Data were also collected by interviewing the responsible officers. There have been used some photo (capture at factory) and Microsoft office application to prepare this report. Here includes some sources of data collection:

- ✓ Internet
- ✓ Discussion
- ✓ Class lecture
- ✓ Factory Visit
- ✓ Industry Method Analysis

Company Details:

1. **Iraa Industry, MIDC-Tarapur, Boisar:** Iraa Clothing Private Limited is a Private incorporated on 26 July 2005. It is classified as Non-government Company and is registered at Registrar of Companies, Mumbai. Its authorized share capital is Rs. 85,000,000 and its paid up capital is Rs. 80,700,000. It is involved in Spinning, weaving and finishing of textiles. Iraa Clothing Private Limited's Directors of Iraa Clothing Private Limited are Ria Sunil Biyani, Archana Sunil Biyani, Isha Sunil Biyani.
2. **Prime Mode Apparels, GIDC-Vapi:** Prime Mode is a T-shirt manufacturing company majorly manufactures T-shirts and other knitted garments. Prime Mode is the chief manufacturers for Reliance Industries. This industry has major sewing machines for knitted fabrics.
3. **Mittal Industry, GIDC-Vapi:** Mittal Industries are manufacturers of menswear trousers, shirts and others. They are now slowly venturing into women's wear too.
4. **Virat Industry, GIDC-Navsari:** Virat Industry manufacture cotton dress/casual socks, for Men, Ladies and Children on the latest computerized electronic knitting machines of Lonati and Matec from Italy and KTM from Korea. Socks are manufactured in Cotton, Cotton/Viscose, Wool, Acrylic, Wool/Cashmere, Wool/Silk, and Cotton/Silk. Special yarn requests can also be developed.
5. **Soul Clothing Industry, GIDC-Sachin:** Soul Clothing is the manufacturer of Ladies Tops as well as Dresses. Basically all Western Wear. They experiment on different colored and different woven as well as processed fabrics. There are no particular styles which are frequently repeated and they are majorly job-workers for many brands. Experimental Designs are more done over here. They are soon venturing into their own brand too.

Manufacturing Flow Chart:

Visit Details:

Cutting

- Design Patterns
- Marker Plans

Stitching

- Garment Parts & Accessories
- Machinery, Threads & Flour.

Washing

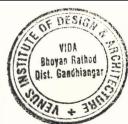

- Washing Process & machinery.
- Chemicals for different washing processes.

Conclusion:

Students got to understand entire apparel manufacturing process with different fabrics and silhouettes. Different machineries as well as their operations and importance in the industry.

Institute of Design

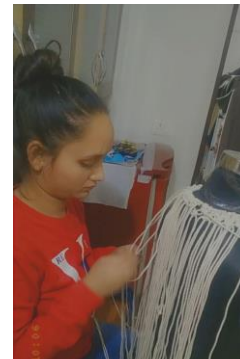

Workshop – Design Workshop on Macrame Art

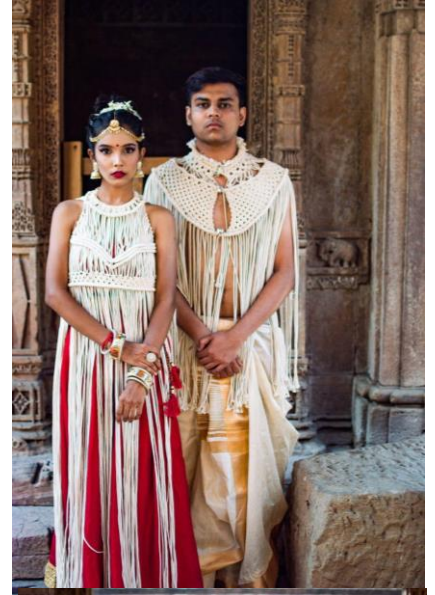

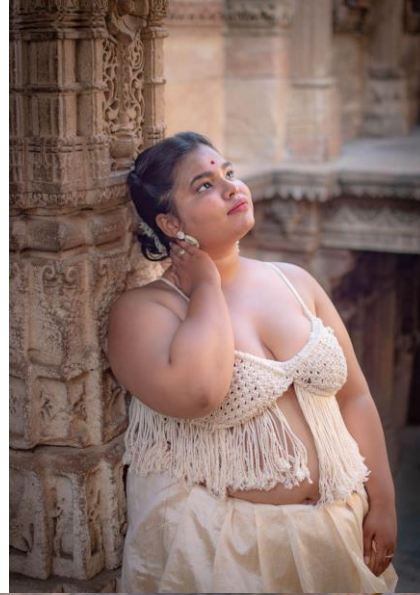

Coordinator: Prof. Meeta Kharadi
Faculty Assistant: -
Moderated by: Prof. Meeta Kharadi
Date: 20/10/2021 to 21/10/2021
Time: 10:30 AM to 2:00 PM (2 day)
Venue: Fashion Design classroom
Total Number of Students: 50

Details of the Workshop

Back in the 13th century, Arabic weavers used macramé to create decorative fringes on shawls and veils. Macramé is the art of tying knots to create beautifully patterned textiles. This exercise aims to create a macrame knotting of Arabic weavers into distinctive garments with a distinctive Indian identity.

Pictures

The mud and mirror workshop for Fashion Designing Students was organized with the aim of introducing participants to traditional Indian crafts and inspiring innovative design approaches. This workshop provided a platform for students to explore the artistic intricacies of mud and mirror work, enhancing their understanding of indigenous techniques and fostering creativity within the realm of fashion design.

Activities:

- Introduction to mud and mirror work.
- Live demonstrations of techniques.
- Hands-on experience for participants.
- Design exploration and group project.

Outcomes:

- Enhanced understanding of traditional crafts.
- Skill development in mud and mirror techniques.

- Inspiration for blending tradition with modern design.
- Networking and collaboration opportunities.

The workshop successfully bridged tradition and modernity, empowering students to incorporate cultural heritage into contemporary fashion.

Workshop – Design Workshop on Traditional Hand Painting

Coordinator: Prof. Meeta Kharadi

Faculty Assistant: -

Moderated by: Prof. Meeta Kharadi

Date: 25/06/2021 to 30/06/2021

Time: 10:30 AM to 2:00 PM (6 day)

Venue: Fashion Design Classroom

Total Number of Students: 17

Details of the Workshop

India's various regions are each associated with a different form of art. Here you will find exquisite traditional Indian paintings for the living room and Hindu Puja room. In this exercise, students will learn traditional Indian painting skills, Indian art history and different color medium. For this project, we explored simple mechanisms that can be used to develop wall decorations that have unique Indian characteristics.

Institute of Design and Planning

Workshop – Design and It Education

Coordinator: Chirdeep Vibhakar
Faculty Assistant: Prof. Jatin Patel
Moderated by: Prof. Jatin Patel
Date: 17/10/2023
Time: 11:00 AM
Total Number of Students: 46

Details of the Workshop

Design education in IT merges creativity with technology, fostering innovation and problem-solving. It equips students with skills in UI/UX, graphic design, and digital media, essential for modern tech landscapes. This blend enhances user experiences and drives technological advancements, preparing graduates for dynamic, interdisciplinary roles.

Objective

The objective of the Design and IT Education Workshop is to equip participants with foundational skills in integrating design principles with IT applications. Attendees will learn to create user-centered designs, understand UI/UX concepts, and apply digital tools effectively, fostering innovation and enhancing their ability to solve real-world technological challenges.

Significance

The significance of the Design and IT Education Workshop lies in its ability to bridge the gap between creativity and technology. By combining design principles with IT skills, participants gain a holistic understanding of user experience and digital innovation. This integration is crucial for developing solutions that are both functional and aesthetically pleasing, driving advancements in technology and improving user interactions.

Pictures

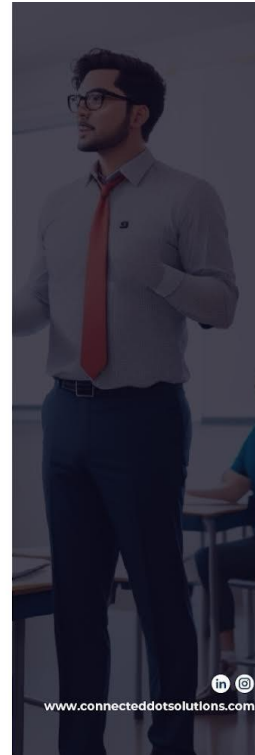

Seminar on IT EDUCATION & DESIGNING

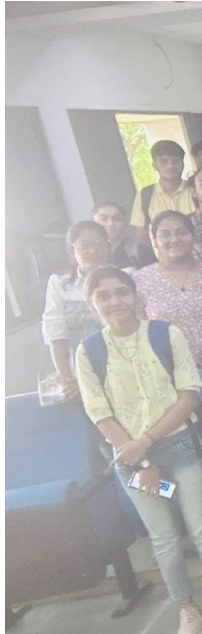

A seminar on IT Education and Designing to explore the intersection of technology and creative design, where innovation meets aesthetics for a brighter digital future.

WHAT IS A CITY: A CONTESTED IDEA

- Generally, defined as - a place of greater **population**, and/or **importance** than a town.
- A town that has been given special rights by the state government.
- The word city and the related civilization come from the Latin root *civitas*, originally meaning 'citizenship' or 'community member' and eventually coming to correspond with *urbis*, meaning 'city' in a more physical sense.
- For experts:**
Parameters are population, economic attributes, density, administrative setup, urban characteristics etc. - depending on the governing nation.

SWARNIM STARTUP & INNOVATION UNIVERSITY

Institute of Design and Planning

Workshop –UNDERSTANDING PLUMBING

Coordinator: Ar.Piyush Pandya

Faculty Assistant: Prof. Shweta Kapoor

Moderated by: Prof. Rooshi Gajjar

Date: 19/08/2023

Time: 12:00 PM to 01:30 PM

Total Number of Students: 9

Details of the Workshop

Understanding more about construction details of toilets. The steps followed for the execution of toilets in site.

Objective

To understand plumbing construction

Significance

As future architecture Students came to know about construction technology, whereabouts when and how the water supply, plumbing and electrical details in a site

SEMINAR ON
PLUMB TALK

Speaker
Mr. Bharat Bhai Patel
Plumbing expert for 15 years.
worked in various commercial, and residential projects.
Students of various fields of Architecture, Interiors,
Civil Engineering, Planning are welcome to understand
the process of construction for water supply & services
in a Residential Development.

01 JUNE 2023
11.00 AM ONWARDS

Organized by ISRO

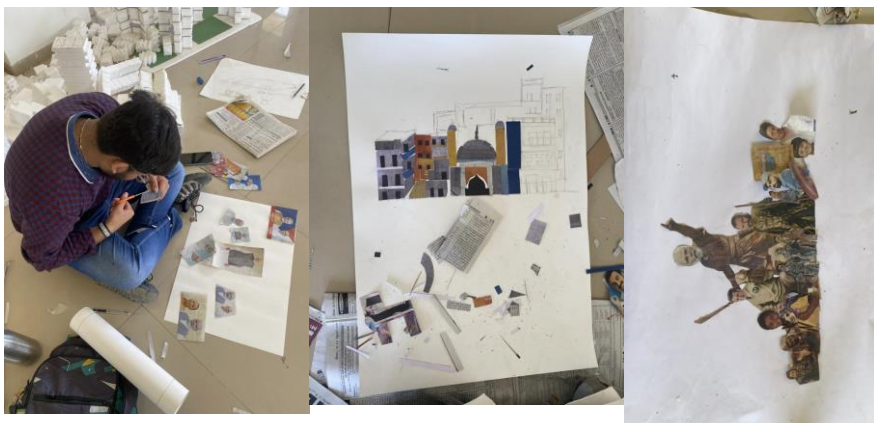

Course Coordinator

Principal I/C

About the Event

Its aim is to understand how images can be used to develop critical visual thinking skills within the context of architectural education and architectural theory in particular. Drawing on the notions of 'visual literacy' and 'visual learning' familiar from educational theory, the article proposes collage as a means to challenge the predominantly verbal modes of assessment prevalent in contextual and critical studies, where 'contextual' refers to the wider contexts (cultural, social, historical, theoretical) within which architecture is situated. The Collage Workshop, which the author has developed over the last five years whilst working closely with students at both undergraduate and postgraduate level, is a concrete attempt to implement visually oriented forms of learning and reduce the reliance on written assignments across the curriculum. By analysing some examples of collages produced by students who participated in the workshop, the article hopes to show how images can be used in the construction of an argument and, perhaps more crucially, how seeing assumes meaning in an image-saturated world.

Details of the Workshop

Design education in IT merges creativity with technology, fostering innovation and problem-solving. It equips students with skills in UI/UX, graphic design, and digital media, essential for modern tech landscapes. This blend enhances user experiences and drives technological advancements, preparing graduates for dynamic, interdisciplinary roles.

Objective

The objective of the Design and IT Education Workshop is to equip participants with foundational skills in integrating design principles with IT applications. Attendees will learn to create user-centered designs, understand UI/UX concepts, and apply digital tools effectively, fostering innovation and enhancing their ability to solve real-world technological challenges.

Significance

The significance of the Design and IT Education Workshop lies in its ability to bridge the gap between creativity and technology. By combining design principles with IT skills, participants gain a holistic understanding of user experience and digital innovation. This integration is crucial for developing solutions that are both functional and aesthetically pleasing, driving advancements in technology and improving user interactions.

Dr.Parwathi Pillai

Prof. Shweta Kapoor

Rooshi Gajjar

Details of the Workshop

Environmental Protection and management lecture conducted by Scheduler-1 inspector Dr.Parwathi Pillai For the Students of Masters in urban planning, Topics like Monitoring, Assessment, Causes and Remedies Discussed by the expert in presence of Faculties of urban planning.

Objective

To learn environmental Protection and management the methods and use of technology of scheduler-1 inspector to serve the purpose

Significance

As future urban planners Students came to know about the strategies used for environment Management and the role of the authorizing bodies like GPCB.

WHAT IS A CITY: A CONTESTED IDEA

Why is a large village not a city?

How Are Urban Areas Defined Across the World?

Source: www.population.org

WHAT IS A CITY: A CONTESTED IDEA

- Generally, defined as - a place of greater **population**, and/or **importance** than a town.
- A town that has been given special rights by the state government.
- The word city and the related civilization come from the Latin root *civitas*, originally meaning 'citizenship' or 'community member' and eventually coming to correspond with *urbis*, meaning 'city' in a more physical sense.
- For experts:**
Parameters are population, economic attributes, density, administrative setup, urban characteristics etc. - depending on the governing nation.

CITIES OF YESTERDAY: PRE-MEDIEVAL & EARLY-MEDIEVAL CITIES

- At the culmination of classical period, Indian subcontinent was frequently attacked by invaders like Huns, Scythians and Kushans in the northern India.
- However, southern India thrived with middle and late Chola, Chera & Pandya dynasties thrived, so did their capital & commercial cities.
- Ujjaini, Maheshwar, Vidisha, Amaravathi, Mandavgarh, Madurai, Mahabalipuram were designed and flourished on trade routes, serving merchants and rich. This also invited frequent attacks for control over the region.
- Secondly, when trade and commerce flourished, various temple & sculpture styles like Nagara, Gandhar & Dravida reached their peak.

SWARNNIM
SCHOOL OF DESIGN

We Swarnnim Institute of Design is going to organise a 2 Days online Design workshop - MERAKI - "To revive the creative soul" on 3rd and 4th July 2023, 11 AM onwards.

The workshop will consist of -

3rd July - Introduction to design.

4th July - Why choose Design? Design career and opportunities.

The workshop is curated for the students of 10th | 12th | NATA | Design Aspirants and Parents.

Urban Spatial Structures- Workshop

Coordinator: Dr Chinmay Satbhai

Date: 23/09/2023

Time: 12:00 PM to 01:30 PM

Total Number of Students: 15

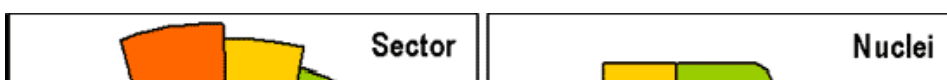

What are Urban Spatial Structures?

Cities have complex shapes which seems to escape classification, and in a certain way every city is unique

However, cities have a spatial structure which is not always visible from the ground but which appears when analyzing data

Many cities which appear very dissimilar from the ground share the same/ similar spatial structure

P Place:Seminar Hall, Swarnim University.

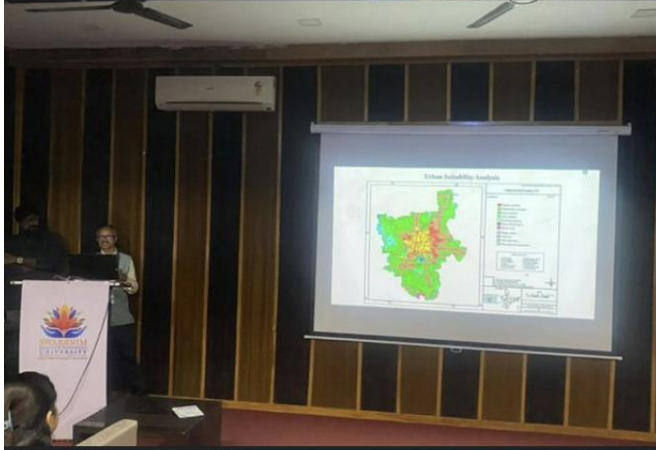

We proudly hosted an insightful talk by Mr. R.J. Bhandari from ISRO, delving into the intricate world of Remote Sensing and GIS.

Our attendees embarked on a journey of discovery, exploring the practical applications and understanding the complexities of satellite imagery and geographical information systems.

Let's continue learning and exploring new technology together at Swarnim Startup & Innovation University.

Remote sensing is the process of detecting and monitoring the physical characteristics of an area by measuring its reflected and emitted radiation at a distance (typically from satellite or aircraft).
