

## Name of startup – Carwaah

**Founders Name** – Farj Patel, Arj Patel

**Industry/Category/Sector** – Automobile

**Brief about the startup** - India having 1.4 billion population having only 4% of fresh water resources so it is necessary to save water. India is facing water scarcity due to which over 2 lakh people loses their lives every year. Car owners facing serious problems like rusting, paint damaging and daily problems like hard water spots other by using traditional car wash. **CARWAAH's** Waterless Car Wash is the ultimate solution. The product is completely harmless to the car's paint and provides extra shine after every wash. It saves 40-100 liters of water on every single car wash. It saves 40-100 liters of water on every wash. Protects the car's paint with added wax and sealant, enhancing shine. Saves money on water bills, buying different products and maintenance our 500ML concentrated solution can provide you 80-100 car washes. Wash your car anytime, anywhere without needing water or electricity.

The startup has received **INR 50,000/- fund support** from the University.

**Output of the startup:** Currently, the startup has already started traction in the market. The student of the university has come with entrepreneurial mind set with innovation of water saving. The startup Idea has won the first prize in the Boot Camp Organized by AICTE.

## Institute Details

**Title of the Invention**

**Waterless Car Wash**

**Name of the Inventors &  
Name of the Institute**

**Fari Patel & Ari Patel. Team Carwaah**

**Field/Domain of the Invention**

**Automobile Detailing Industry**

**What problem are you  
solving?**

**Water Scarcity problem & Car owners' facing problems due to car wash**

**Describe how the problem is  
currently being solved?**

**By using Waterless Car Wash liquid to wash the car**

**What is the proposed  
solution?**

**Waterless Car Wash**

## Institute Details

**Noveltu / Unique Value Proposition of the solution**

**One stop Solution for any vehicle and saves 40-50L water per wash**

**Current Status of the Invention**

**TRL - 8**

**Is the Invention IP Protected/ Filed**

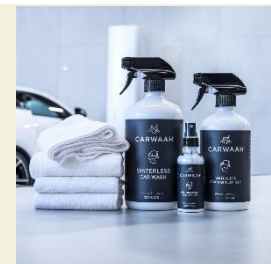

**No**

**Plan for Commercialization (Licensing/ Startup)**

**Launching the product commercially within 2-3 months**

**Assistance required from AICTE Innovation Centre**

**Photograph of the Actual Prototype**

शिक्षा मंत्रालय  
MINISTRY OF  
EDUCATION

MoE's  
INNOVATION CELL  
(GOVERNMENT OF INDIA)
