5.4.2 Alumni contributions and engagement which have led to the significant development of institution through academic and other support system

Alumni play a crucial role in the growth and development of educational institutions in various ways. Their contributions go beyond financial support and extend to fostering a sense of community, networking, mentorship, and overall enhancement of the institution's reputation.

Alumni networks provide valuable connections for current students and recent graduates. Networking opportunities can lead to internships, job placements, and collaborations with industry professionals, enhancing the institution's reputation and the employability of its graduates. Our alumni have been very resourceful in this aspect and have provided job opportunities to their juniors, by way of recommending the college to their HR managers and recruitment teams. Some of our alumni of our institution have personally interviewed their juniors and been instrumental in getting the jobs to successful candidates.

Alumni often return to their alma mater to share their experiences and insights through guest lectures and seminars. These events familiarise the students to real-world perspectives, industry trends, and practical knowledge, enriching their educational experience. And our alumni have greatly contributed in this direction and have delivered invited lectures on current industry trends that motivated the present set of students.

Alumni chapters serve as a bridge between former students and the institution helping to maintain a strong sense of community, fostering a lifelong connection with the alma mater. Our alumni have encouraged the current students to assist the alumni association in its various activities, including more than eight seminars and guest lectures.

Alumni, with their diverse experiences, have also provided valuable feedback on the curriculum, teaching methods, and overall educational experience. And, our alumni have been part of the various boards of studies, advising the boards on various requirements of the industry and how the syllabus may be modified accordingly, and make the students industry-relevant. They have also been regularly offering their expert services to the Training & Placement Cell of the University, by way of being the resource persons for the mock interviews being conducted.

Alumni play a crucial role in the success and growth of educational institutions by contributing in various ways, including networking, mentorship, financial support, advocacy, and knowledge transfer. Cultivating strong relationships with alumni can create a positive feedback loop that benefits both the institution and its graduates.

ALUMNI ENGAGEMENTS

Several of our proud alumni of the college have been rendering great help to the college in various ways:

1. as resource persons of various seminars and innovative lectures
2. as experienced professionals during campus recruitment drives

1. Cybersecurity in the BFSI Sector: Challenges and Innovations

On October 14, 2024, Swarnnim Institute of Technology organized a technical lecture by alumnus **Ms. Dhvani Sanjay Pathak**, Class of 2023, currently working at HDFC. Graduating with a Bachelor's in Computer Engineering and working on various independent research areas, she demonstrated her expertise in network security, threat modelling, and secure coding practices. She examined emerging cyber threats within India's banking landscape and shared best practices for implementing multi-layered defense strategies. Her case studies on real-time breach analyses helped students understand risk assessment, incident response, and compliance frameworks. The comprehensive discussion empowered attendees to prioritize security in software development and aspire to roles in information security.

Seminar on
Cyber Security in the BFSI Sector
Challenges and Innovations

Benefit:

- Strong cybersecurity in the BFSI sector safeguards sensitive financial data, ensures compliance with regulatory standards, and protects against fraud. It builds customer trust, supports uninterrupted operations, and enables safe adoption of digital innovations. Ultimately, it secures both reputation and revenue.

Guest Speaker:
Ms. Dhvani Pathak

Date: 14th October 2024 **Venue:** Seminar Hall, SSIU

2. People Analytics: Leveraging Data for Smarter HR Decisions

On February 28, 2024, the School of Management, Commerce and Liberal Arts hosted a technical webinar led by alumnus **Zala Vijaysinh Majabutsinh**, Class of 2023, currently working at TCS. Zala, who holds a Bachelor's in Human Resource Management with proficiency in Python, SQL, and data visualization, illustrated how people analytics drives evidence-based decision-making in Indian corporations. He showcased dashboards tracking employee engagement, retention risk models, and predictive hiring algorithms. His insights into building HR data pipelines and translating metrics into strategic action plans enriched students' analytical skills. The webinar helped attendees understand the importance of data transparency and prepared them to implement analytics solutions that enhance organizational performance.

3. Smart Cities and IoT: Gujarat's Digital Infrastructure Vision

On July 10, 2023, Swarnnim Institute of Technology organized a technical lecture featuring alumnus **Patel Sharvik Mahendrakumar**, Class of 2022, currently working at Envision. Sharvik, who graduated with a Bachelor's in technology in Computer Science and has strong skills in IoT architecture, embedded systems, and network protocols, shared his hands-on experience designing smart-city solutions for Ahmedabad's urban projects. His insights into real-world challenges and best practices for deploying IoT platforms enriched students' understanding of system integration and project management. The interactive session inspired attendees to pursue research in sensor networks and prepared them for industry internships by clarifying the skills in highest demand.

4. AI in Diagnostics: Transforming Physiotherapy and Rehabilitation

On March 22, 2022, Venus Institute of Physiotherapy conducted a technical lecture delivered by alumnus **Dave Yashvi Sunil**, Class of 2021, currently serving as Head of Department at Physiotherapy Center, Apang Manav Mandal. Yashvi, who holds a Master's in Physiotherapy (Orthopedics) now with advanced training in AI-driven diagnostic tools, demonstrated how machine-learning algorithms enhance patient assessment and treatment planning. Her detailed case discussions, featuring AI-powered gait analysis and adaptive rehabilitation robotics, provided students with clarity on integrating technology into clinical practice. This session motivated aspiring physiotherapists to adopt data-driven methodologies and prepared them for collaborative research projects at the institute.

The banner features the Swarnnim Startup & Innovation University logo on the left. The main title 'SEMINAR ON AI IN DIAGNOSTICS' is in large, bold, black letters. Below it, the subtitle 'Transforming physiotherapy and Rehabilitation' is in smaller black text. To the right, there is a circular inset image showing a person lying on a treatment table with a robotic arm positioned over them. At the bottom left, there is a small icon of a podium and the name 'MS. Yashvi Dave'. The date '22 March 2022' and the location 'Seminar Hall, SSIU' are displayed in a blue bar at the bottom.

5. The Future of Work: HR Practices in the Post-Pandemic Era

On January 25, 2022, the School Management, Commerce and Liberal Arts hosted a non-technical seminar presented by alumnus **Rathod Vikas Ramnikhbhai**, Class of 2021, currently employed at Jaro Education. He holds a Master's in Human Resource Management with expertise in talent analytics, remote-work policies, and change management. In his session, he explored how Indian organizations, especially in Gujarat, restructured workflows and adopted hybrid models post COVID-19. Through interactive activities and real-world examples, he guided students on designing inclusive HR strategies, leveraging digital platforms for employee engagement, and measuring productivity. The seminar helped current students appreciate evolving workplace norms and inspired them to develop data-driven HR solutions for tomorrow's organizations.

6. Rehabilitation Robotics: The Next Frontier in Indian Physiotherapy

On September 17, 2021, Venus Institute of Physiotherapy arranged a technical lecture featuring alumna **Upadhyay Pruthvi Bhaveshkumar**, Class of 2021, currently specializing in robotic rehabilitation at a leading clinic. Pruthvi, who earned a Bachelor's in Physiotherapy and underwent certification in biomedical engineering, instructed students on the design and clinical application of rehabilitation robots. She presented live demonstrations of upper-limb exoskeletons and gait trainers, explaining sensor calibration, patient safety, and outcome measures. Her presentation deepened students' appreciation for interdisciplinary collaboration between engineering and healthcare. The session encouraged them to explore research in adaptive robotics and instilled confidence in utilizing cutting-edge tools for patient recovery.

7. The Art of Storytelling in Business Communication

On **April 6, 2021**, the School of Management, Commerce and Liberal Arts conducted a dynamic workshop on storytelling in business communication. The session was led by **Mehta Aditya Bharatbhai**, a B-Tech CS graduate placed at **Covalense Digital Solutions** with a package of **3 LPA**. He shared techniques to transform data into compelling narratives and emphasized clarity, tone, and emotional connection in messaging. Through hands-on exercises, students learned how storytelling can boost confidence, influence stakeholders, and enhance professional communication.

8. Digital Payments and FinTech Innovation in India

On December 18, 2020, the School of Banking and Finance hosted a seminar led by alumna **Gondaliya Mansi Rajeshbhai**, Class of 2020, now employed at Mahendra Finance. Mansi holds a Bachelor's in Commerce and possesses strong analytical skills in digital payment gateways, blockchain fundamentals, and regulatory compliance. She explained the evolution of UPI in Gujarat and emphasized how fintech hubs like GIFT City are reshaping financial inclusion. Her presentation, which included case studies and live demonstrations, helped students grasp the technical underpinnings of secure transactions and motivated them to explore roles in payment-solution development and risk management.

1. Team Dynamics and Collaborative Problem-Solving

Held on **November 28, 2023**, this workshop was delivered by **Rajput Harsh Omprakash**, a B.Tech CS graduate currently placed at **Cerner** with a **5.8 LPA** package. Drawing from his cross-functional corporate experience, he guided students through live problem-solving scenarios and agile teamwork models. Students explored decision-making under uncertainty and built consensus within diverse teams. The session deepened understanding of how high-functioning teams drive innovation and execution in the workplace.

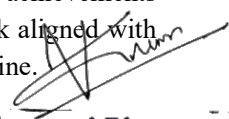

Snippet from the workshop:

2. Building a Winning LinkedIn Profile

Held on **August 28, 2023**, this digital branding session was conducted by **Ayush Kumar**, a BBA (International Business) graduate placed at **My Captain** with a **4.5 LPA** package. He shared techniques to optimize LinkedIn profiles, from writing headlines and summaries to showcasing achievements through multimedia. Students also learned tips to engage recruiters and build a network aligned with their goals. The session empowered participants to shape their professional presence online.

3. Startups, Scaleups & Software Ecosystems: Lessons from Gujarat's Founders

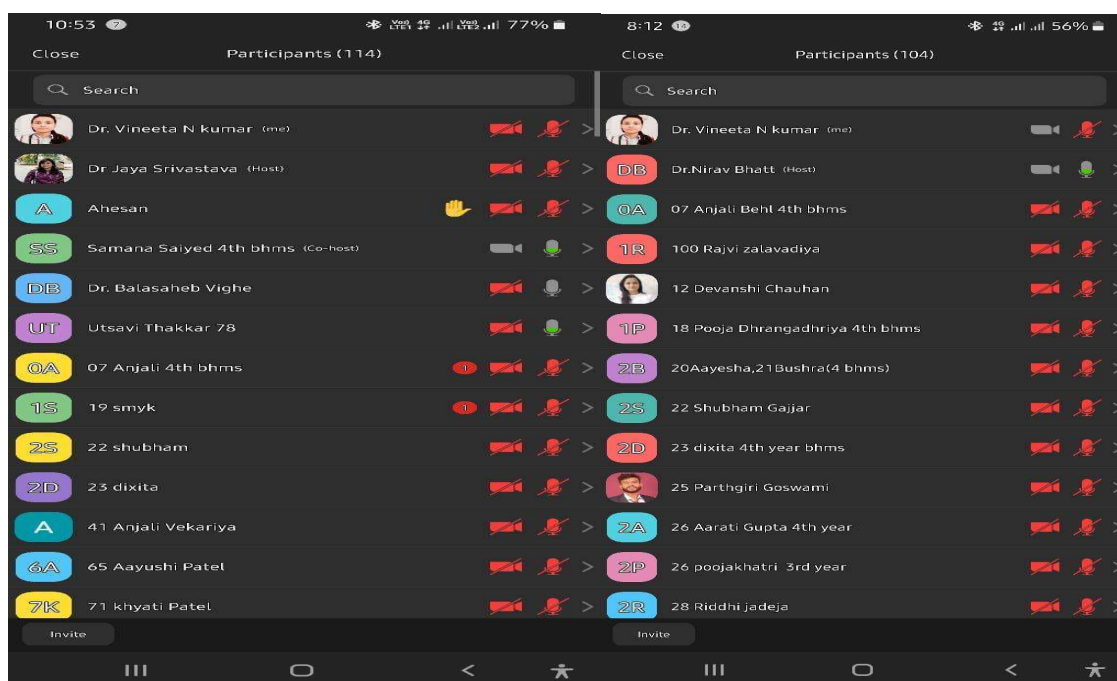

On November 30, 2023, the Department of Computer Science and Engineering hosted a technical webinar by alumnus **Upadhyay Ishan Vedprakash**, Class of 2021, now a software engineer at Capgemini. Ishan, who graduated with a Bachelor's in Information Technology and has strong skills in full-stack development, cloud architecture, and agile methodologies, shared his entrepreneurial journey during Gujarat's booming startup era. He detailed the state's incubation policies, ecosystem support in Gandhinagar, and strategies for scaling solutions. His candid narrative on product-market fit and funding challenges offered practical guidance, motivating students to pursue innovation-driven projects and equipping them with a clear roadmap for launching tech startups.

1. Placement Drive- RAMI International

Ms. Tanvi Koshti (MBA, Dual Specialization in Finance and HR, Class of 2024), currently serving as HR Executive at RAMI International, spearheaded a comprehensive placement event for BBA, BCA, MBA, and MCA students. The session encompassed technical assessments such as financial modeling exercises using Microsoft Excel, data analysis case studies in R and Python, and software development fundamentals. Non-technical guidance included resume structuring, effective communication strategies during interviews, and professional etiquette. She emphasized the importance of showcasing soft skills—teamwork, adaptability, and leadership—during group discussions and one-on-one interviews.

2. Negotiation Skills for Young Professionals

A workshop on negotiation skills was held on **February 17, 2022**, conducted by **Chauhan Kuldipsinh Arunsinh**, a BCA graduate placed at **Quinnox Consultancy Services** with a **3.5 LPA** package. He introduced students to structured negotiation frameworks such as BATNA and mutual gains strategy. With case-based roleplays, participants practiced persuasive communication and stakeholder alignment. The session provided valuable exposure to the tactics used in client discussions, business deals, and team collaboration.

TESTIMONIALS

Alumni testimonials constitute a vital instrument for institutional advancement by encapsulating graduates' experiences, professional achievements, and endorsements of academic quality. By documenting alumni successes and recommendations, the institution obtains actionable insights to refine curricula, strengthen industry linkages, and augment placement strategies and institutional infrastructure. Moreover, testimonials bolster institutional credibility, enriching reputation, and stakeholder trust.

Testimonial

"Joining Swarnnim Startup and Innovation University has been a transformative experience for me. As an MCA student, I was looking for a place that not only offers strong academic grounding but also encourages innovation and hands-on learning – and Swarnnim delivered exactly that."

Dipen Vyas
Masters in Computer Application
2021-2023

Testimonial

"My experience at Swarnnim Startup and Innovation University has been deeply enriching and professionally rewarding. The university offers a strong foundation for career development through its robust placement support, industry connections, and career guidance initiatives. I have witnessed consistent efforts by the placement cell to connect students with top recruiters and real-world opportunities, which has significantly enhanced our professional readiness."

"The faculty members at Swarnnim are not only highly qualified but also incredibly supportive and approachable. They bring a perfect balance of academic expertise and industry experience, making each session insightful and practical. Their mentorship has played a key role in shaping my understanding of core business concepts and preparing me for real-world challenges."

"Overall, my journey here has contributed immensely to my personal and professional growth. The university fosters a culture of innovation, leadership, and continuous learning, which has helped me develop critical thinking, communication skills, and an entrepreneurial mindset. I am proud to be a part of Swarnnim Startup and Innovation University and truly grateful for the growth it has enabled in my MBA journey."

2022-2024

Testimonial

I am proud to have completed my MBA with a dual specialization in Human Resource and Marketing from Swarnnim Startup and Innovation University. My academic journey has been both enriching and transformative, equipping me with essential knowledge and practical skills for my professional career.

I am sincerely grateful to my professors for their unwavering support, insightful guidance, and dedication to academic excellence. Their mentorship has played a pivotal role in enhancing my learning experience and shaping my overall development.

A special note of appreciation goes to the Training and Placement Department for their relentless efforts in career guidance, placement preparation, and skill enhancement. Their consistent support in bridging the gap between academics and industry has been instrumental in building my confidence and corporate readiness. Currently, I am working as a Recruitment Specialist at CPN Solutions, where I manage the end-to-end recruitment process. My responsibilities include handling talent acquisition for both IT and Non-IT domains, with roles such as Business Development Executive, HR Executive, Interior Designer, Software Developer, and more.

My time at Swarnnim has been a phase of significant personal and professional growth. It has laid a solid foundation for my career and prepared me to take on future challenges with confidence and clarity.

I am deeply grateful for the invaluable experiences and learning opportunities I gained during my time at Swarnnim Startup & Innovation University. Beyond academic knowledge, my journey at the university allowed me to form lasting friendships and create memories that I will always cherish. The supportive and enriching environment encouraged me to explore new ideas, expand my horizons, and grow both personally and professionally.

One of the most impactful aspects of my journey at Swarnnim Startup & Innovation University was my experience with the Training and Placement Cell. Their consistent support and dedicated mentorship played a pivotal role in shaping my career path. Through their guidance, I developed essential skills such as effective communication, professional interaction with senior authorities, and the confidence to present myself in corporate environments. The placement preparation sessions were particularly valuable—offering practical insights into interview techniques, professional etiquette, and soft skills development. These learnings significantly boosted my confidence and equipped me to step into the professional world with clarity and assurance. I am truly grateful for the unwavering support and mentorship provided by the entire Training and Placement team.

Thanks to Swarnnim Startup & Innovation University and its exceptional placement team, I stepped into my career feeling confident, capable, and ready to take on new challenges.

Pursuing my Master of Physiotherapy at Swarnnim Startup and Innovation University has been a deeply transformative experience—both intellectually and emotionally. The program's robust curriculum, complemented by extensive clinical exposure, equipped me with a strong foundation in musculoskeletal science, neuro-rehabilitation, and therapeutic interventions.

What truly elevated my learning, however, was the university's commitment to cultivating affective presence, articulate communication, and relational trust with patients. These patient-centric competencies helped me deliver not just physical rehabilitation, but emotional reassurance—especially when working with those in pain or recovery.

My sincere gratitude goes to the faculty and the Training & Placement Department, whose mentorship and guidance fostered both technical mastery and human connection. I now step into the healthcare industry not just as a practitioner, but as a thoughtful and responsive caregiver.

Padaliya Keshvi
Master in Physiotherapy
2023-2025

Testimonial

"My academic journey in the Master of Physiotherapy program at Swarnnim Startup and Innovation University has been both rigorous and rewarding. The curriculum's seamless integration of advanced theory, lab-based learning, and hospital-based clinical training helped me deepen my expertise in physical rehabilitation. Beyond technical knowledge, the university placed a strong emphasis on essential soft skills—emotional intelligence, professional communication, and therapeutic rapport-building. These qualities have significantly enhanced my ability to connect with patients, understand their needs, and deliver personalized care.

The unwavering support of the Training & Placement Department further enriched my learning. Through exposure to industry expectations, patient simulations, and real-time clinical scenarios, I've grown into a confident and compassionate practitioner, fully prepared to take on the challenges of modern clinical practice."

Testimonial

My Bachelor of Physiotherapy journey at Swarnnim Startup and Innovation University was both challenging and rewarding. The curriculum offered a solid foundation in physical rehabilitation through theory, lab work, and clinical training. The university's focus on soft skills—like emotional intelligence, patient communication, listening, and team-building—greatly enhanced my ability to build strong therapeutic relationships and work effectively in healthcare teams. With support from the Training & Placement Department, I gained valuable real-world exposure, preparing me to step into clinical practice with confidence and compassion.

Completing my Bachelor of Physiotherapy at Swarnnim Startup and Innovation University gave me more than just academic knowledge—it prepared me for the human side of healthcare. I learned how to combine evidence-based practice with compassionate responsiveness, articulate patient interaction, and consistent therapeutic presence.

This balance of skill and sensitivity—nurtured through classroom learning, clinical experience, and guidance from the Training & Placement Cell—has laid a strong foundation for my career as a physiotherapy professional.

"My time at Swarnnim Startup and Innovation University has been both impactful and inspiring. The Master's in Planning program is thoughtfully structured to balance academic knowledge with real-world application. Fieldwork, studio sessions, and industry interactions allowed me to see the direct relevance of what we studied in class. The faculty were not just educators but mentors, guiding us with dedication and helping us grow into thoughtful professionals. The university's strong focus on employability through its Training and Placement Cell helped me build confidence, improve my communication skills, and face interviews with ease. Swarnnim has helped me discover my potential and prepared me to contribute meaningfully to the field of planning."

"My journey as a Master's in Planning student at Swarnnim Startup and Innovation University has been a rewarding and career-shaping experience. The university offered a perfect blend of academic rigor, practical exposure, and professional development. The faculty members were not only experts in their fields but also incredibly supportive and approachable, helping me build strong theoretical knowledge and real-world insights. What truly stood out was the university's commitment to holistic growth. Through studio-based learning, site visits, workshops, and interactive sessions, I developed critical planning skills, spatial understanding, and a deeper appreciation for sustainable development. The Training and Placement Cell played a crucial role in preparing me for the job market, providing excellent guidance in resume writing, interview readiness, and career planning. Their constant encouragement and structured training helped me confidently transition from campus to career. Swarnnim Startup and Innovation University has not just given me a degree, but a direction. I'm proud to be a part of this dynamic institution and would highly recommend it to anyone aspiring to build a meaningful career in the field of planning."

"Studying at Swarnnim Startup and Innovation University was a turning point in my academic journey. The environment here fosters curiosity, innovation, and growth. As a planning student, I benefited immensely from the university's open and inclusive culture, which encouraged collaboration and hands-on learning. The support from faculty and staff was exceptional—they were always available, approachable, and committed to our success. From conceptual clarity to technical proficiency, every aspect of the course helped strengthen my understanding of planning practices. The placement support was equally impressive, with continuous mentoring and career preparation. I graduated feeling confident and well-equipped for the professional world."

"My journey as a B.Tech Automobile Engineering student at Swarnnim Startup and Innovation University has been truly rewarding. The university offers excellent infrastructure and advanced lab facilities that made learning highly practical and industry-oriented. From engine testing setups to modern diagnostic tools, the hands-on exposure we received helped bridge the gap between theory and real-world application.

SSIU's focus on innovation, startup culture, and practical learning inspired me to think beyond textbooks and develop problem-solving skills essential in the evolving automobile industry.

Equally important was the role of the Training and Placement Department, which guided us through every stage of career preparation – be it resume building, mock interviews, or technical workshops. Their support played a vital role in enhancing our confidence and employability.

I am proud to be a part of an institution that not only empowers students technically but also prepares them holistically for the professional world."

ALUMNI FEEDBACK ANALYSIS (2019-2024)

Feedback from alumni is a valuable resource for universities, offering insights into the effectiveness of educational programs and their impact on graduates' lives. Alumni perspectives provide a holistic view of the Institution experience, encompassing academic, social, and professional aspects. Overall, alumni feedback serves as a cornerstone for ongoing growth and development within the Institution ecosystem. The feedback was collected in four categories- very good, good, satisfactory, and fair.

New initiatives were implemented to improve teaching quality, campus facilities, and alumni engagement based on the suggestions received, ensuring continuous improvement in both educational and co-curricular domains.

Action Taken Summary:

Swarnnim Startup & Innovation University			
Rectifications and New Measures (2019-2024)			
Feedback Parameter	Most Common Suggestions / Comments	Action Taken / Proposed Measures	Responsible Department / Unit
Curriculum Design & Implementation	Include updated industry-relevant topics; introduce more electives; align curriculum with job market.	New electives added; stakeholder discussions for curriculum alignment.	Academic Council; HoDs
Computing Facilities	Upgrade outdated PCs; increase internet bandwidth; provide licensed software.	150 new computers and laptops procured; internet upgraded to 500 Mbps	IT Services; Lab In-Charge
Infrastructure Facilities	Improve classroom seating & ventilation; maintain restrooms	10 classrooms refurbished; monthly maintenance schedule implemented	Maintenance Team; Admin
Laboratory Facilities	Procure modern lab equipment; ensure regular maintenance; enhance safety protocols.	Advanced microscopes and sensor kits purchased; safety protocols installed.	Lab Coordinators; HoDs
Knowledge Dissemination	Organize more industry workshops; adopt interactive teaching; provide online learning resources.	Bi-monthly guest lectures initiated; FDPs on active learning completed; Coursera courses incorporated in upskilling.	IQAC; Principals, Library
Library Facilities	Add latest textbooks and journals; extend hours; improve digital library.	1000+ new books; Delnet, AIR, NDL, British Library subscriptions enabled.	Library Committee; Librarian
Faculty Competence	Arrange upskilling workshops; recruit more PhD faculty; support conference participation.	25+ FDPs conducted	Principals, HoDs
Placement Training	Increase campus drives; provide more skill-development workshops.	Mock Drives Introduced, 52 Career Enablement workshops over five years; 200+ new recruiters tied up.	Training & Placement Cell

Conclusion

In moving forward, Swarnnim Startup & Innovation University remains committed to strengthening and expanding its alumni network through structured, purposeful engagement. Foremost among the forthcoming initiatives is the establishment of a fully-functioning Alumni Association, which will serve as the central organizing body for our growing community of graduates both within India and beyond. This Association will maintain a dedicated digital platform—featuring verified directories, discussion forums, and alumni news updates—thereby fostering seamless communication and collaboration across continents.

Concurrently, the University will negotiate Memoranda of Understanding (MoUs) with alumni-founded enterprises to create symbiotic partnerships that leverage experienced entrepreneurial insights, bolster technological innovation, and reinforce community linkages. By formalizing these agreements, Swarnnim aims to facilitate internship placements, co-development of research-driven prototypes, and joint funding opportunities—thus enriching the ecosystem for present students and recent graduates.

To further elevate academic rigor and industry relevance, the Office of Alumni Affairs will convene periodic Research Colloquia and Annual Conferences, inviting alumni experts to present on emerging trends in technology, management, and social impact. These gatherings will integrate panel discussions, poster sessions, and mentorship workshops to enhance R&D awareness and inspire cross-disciplinary initiatives among current students and faculty members alike.

Additional initiatives will include structured mentorship programs pairing senior alumni with undergraduate and postgraduate students, regionally focused alumni chapters to coordinate local outreach events, and a biennial “Alumni Innovation Challenge” to spotlight promising projects and startup ideas.

By implementing these measures—rooted in collaboration, innovation, and shared purpose—Swarnnim Startup & Innovation University envisages a robust, intergenerational network that not only celebrates past achievements but also actively shapes the future of education, entrepreneurship, and research. As we embark on this next phase, we remain realistic about the challenges inherent in coordinating a diverse global community; yet, we are confident that, through sustained commitment and mutual support, our alumni will continue to enrich the University’s legacy and drive meaningful impact in their respective fields.
