Students Feedback 2022-23

### Student's Feedback

Question	EXCELLENT	VERY GOOD	GOOD
Q1	18	15	7
Q2	15	18	7
Q3	16	15	9
Q4	18	20	2
Q5	17	18	5
Q6	17	20	3
Q7	18	17	5
Q8	16	22	2
Q9	14	19	7
Q10	18	14	8

## Suggestions received from students :

1. Increase practical-based learning and real-world exposure to improve skill application.
2. Use innovative and student-friendly teaching methodologies for better understanding.
3. Improve academic support and continuous assessment for better progress tracking.

## Suggested Action:

1. Lab hours have been enhanced and made more industry-relevant. New software tools and updated lab equipment have been introduced. Industrial visits, live projects, and expert-led practical workshops are now being conducted regularly.
2. Faculty members have undergone training in interactive and ICT-enabled teaching methods. Use of smart boards, video-based content, and real-time quizzes has been integrated into classroom delivery.
3. A revised continuous assessment system with regular internal tests, quizzes, and progress monitoring has been adopted. Remedial classes and mentoring sessions are being provided to support academically weaker students.

Q8	7	5	0
Q9	0	12	0
Q10	4	8	0

## Suggestions received from Alumni :

1. I appreciate the College's initiative to restructure courses for a gradual progression, but aligning the syllabus with the NEP's emphasis on multidisciplinary learning will better prepare students for evolving industry demands.
2. Introducing specialized electives in AI, Data Science, and Cybersecurity—alongside traditional core subjects—will enable alumni and current students to remain competitive and innovative in rapidly growing tech sectors.
3. Expanding elective options to include capstone projects and industry-driven case studies aligns perfectly with NEP's focus on experiential learning, fostering critical thinking and real-world problem-solving skills.
4. Strengthening industry-oriented offerings through guest lectures, hands-on workshops, and structured internships resonates with NEP's goal of bridging academia and industry, thereby enhancing employability.
5. Regularly updating laboratory equipment and software tools—as advocated by NEP—will ensure that students train on current technologies, maintaining the institution's reputation for quality technical education.
6. Adopting flexible, NEP-aligned specialization tracks will allow students to tailor their learning paths—combining foundational courses with advanced electives—thus catering to diverse career goals and learning paces.

## Suggested Action:

1. Restructure curriculum for gradual progression from basics to advanced concepts:  
The Departmental Curriculum Committee has revised the course structure to support a gradual learning curve. Bridge courses and foundation modules have been introduced for better conceptual understanding and to support students with diverse learning paces.
2. Specialization tracks in emerging fields such as Artificial Intelligence, Data Science, and Cybersecurity have been proposed. These are currently under review by the Academic Council. Collaborations with ed-tech partners are being planned for effective delivery.
3. New electives have been introduced, emphasizing real-world problem-solving and application. Mini-projects have been embedded into the syllabi for final-year UG and PG programs to promote experiential learning.
4. Memoranda of Understanding (MoUs) have been signed with local IT and software firms. A guest lecture series schedule has been prepared, and internship guidelines have been revised to allow internships to contribute towards academic credits.
5. A budget proposal has been submitted for upgrading laboratory equipment. Additionally, procurement of modern software tools related to cloud computing, artificial intelligence, and simulation environments is in progress.
6. A new framework has been developed to enable credit-based elective selections across departments. Development of an interdepartmental course registration portal is underway to support multidisciplinary learning.

## **Suggestions received from Employee :**

1. Restructure the curriculum to provide a smooth transition from basic to advanced topics.
2. Introduce advanced electives in high-demand areas like Artificial Intelligence, Data Science, and Cybersecurity.
3. Emphasize project-based and experiential learning in regular coursework.
4. Strengthen industry interaction through internships, guest lectures, and field visits.
5. Modernize laboratories and upgrade software tools to match industry trends.

## **Suggested Action:**

1. Departmental curriculum committees have revised syllabi to ensure a logical and layered progression of topics. Bridge and foundation courses have been included to support students with varying academic backgrounds.
2. Proposals for new elective modules have been submitted to the Academic Council. Curriculum design is in progress, with plans to collaborate with external experts and industry professionals for delivery.
3. Final-year undergraduate and postgraduate courses now include mandatory project components. Faculty training workshops on project-based learning methodologies are being scheduled.
4. Several MoUs with industry partners have been signed. Internship structures are revised to award academic credits. A calendar for expert talks and industrial exposure is being implemented.
5. Lab audits were conducted and reports submitted for fund allocation. Advanced tools for simulation, cloud computing, and AI are being procured under the new budget plan.

### BSC-IT - TEACHING SCHEME BATCH 2023-27 (NEP)

#### BSC-IT (NEP) Semester – I

Category of Course	Subject Code	Subject title	Teaching Scheme (Per week)				Examination				Total
			Theory	Tutorial	Practical	Credits	Internal		External		
							Th	Pr	Th	Pr	
Major/ Core	BSCIT230101	Fundamentals of Computers	3	0	2	4	50	-	30	20	100
Major/ Core	BSCIT230102	Programming in C	3	0	2	4	50	-	30	20	100
Minor	BSCIT230103	Web Development Using HTML, CSS & XML	3	0	2	4	50	-	30	20	100
MDC	BSCIT230104	Mathematical Foundation	3	1	0	4	50	-	50	0	100
AEC	AEC230101	Communication Skills	2	0	0	2	25	-	25	-	50
SEC	SEC230101	Foundation of Entrepreneurship	2	0	0	2	25	-	25	-	50
IKS	IKS230101	Indian Science and Technology	2	0	0	2	25	-	25	-	50
Total Credits Earned						22	275	0	215	60	550

#### BSC-IT Semester – II

Category of Course	Subject Code	Subject title	Teaching Scheme (Per week)				Examination				Total
							Internal		External		
			Theory	Tutorial	Practical	Credits	Th	Pr	Th	Pr	
Major/ Core	BSCIT230201	Data Structures using C	3	0	2	4	50	-	30	20	100
Major/ Core	BSCIT230202	Database Management System	3	0	2	4	50	-	30	20	100
Minor	BSCIT230203	Mobile Application	3	0	2	4	50	0	30	20	100
MDC	BSCIT230204	Foundation in Statistical Methods	3	1	0	4	50	-	50	-	100
AEC	AEC230202	Logical & Critical Thinking	2	0	2	2	25	-	25	-	50
SEC	SEC230202	Identifying Entrepreneurial Opportunities	2	0	0	2	25	-	25	-	50
VAC	VAC230202	Environmental Studies	2	0	0	2	25	-	25	-	50
Total Credits Earned						22	275	0	215	60	550
