

## STUDENT'S FEEDBACK ACTION REPORT 2019-20

2019-20						
Questions	Excellent	Good	Okay	Bad	Very Bad	Average
1	0	5	6	3	1	3
2	0	0	1	9	5	1.7
3	0	0	5	6	4	2.06
4	5	6	4	0	0	4.06
5	4	9	2	0	0	4.1
6	3	9	3	0	0	4
7	4	8	3	0	0	4.06
8	3	7	5	0	0	3.8
9	5	9	1	0	0	4.2
10	0	0	0	6	9	1.4
11	0	0	3	6	6	1.8
12	3	9	3	0	0	4
13	4	10	1	0	0	4.2
14	0	0	0	9	6	1.6

### **Observations Based on the Student Feedback Questionnaire responses**

1. Curriculum is excellent in developing analytical and problem-solving skills
2. Allocation of credit and teaching hours for the course is excellent
3. Soft skills training is excellent and prepares appropriately for placements
4. The courses taught are very bad and should inculcate lifelong learning and human ethics/values
5. Curriculum is bad and should have a comprehensive methodology for evaluation like quiz, assignment, presentation, projects, case studies etc.
6. The course has very bad balance between theory and application
7. Applicability of the tools and case studies presented in the curriculum in real world taught is very bad
8. The curriculum is very bad and thus should be relevant in terms of recent trends and practices in respective discipline
9. Curriculum is a bad mix of fundamental topics and latest technology relevant to that topic
10. Curriculum is very bad and must consist of all the theory and practical components to make us employable

### **Suggestion received from Student Members**

1. I want to learn about the latest trends and technologies in my field.
2. Courses should include projects or labs where I can apply what I've learned.
3. Assessments should test both theory and practical skills and not only academic scores.
4. The tools and case studies we learn about should be the same ones used in the industry.
5. The curriculum should give me the practical skills needed to get a job after graduation.
6. If there's too much theory and not enough practice, it can feel disconnected from the real world.
7. I'd like to have more projects or assignments that use current tools and techniques.

### **Suggested action:**

1. To enhance the research aspects in the students there will be a provision to introduce Major/Grand Project in the curriculum for the final year students. This will enhance their analytical abilities proposed to be included in the BOS of 2020
2. the internships are an essential component of any curriculum the students will be provided such opportunity and is proposed to be included in the BOS of 2020
3. Being an Innovation and start-up university given a through theoretical and practical exposure to incubate their ideas and mature into their own start-ups is proposed to be included in the BOS of 2020
4. To teach the practical skills needed to get a job after graduation, courses like Negotiation skills, Portfolio management, communication skills will be added in the BOS of 2020.
