## Action Taken Report on Alumni Feedback 2021-22

➢ **Observations Based on the Alumni Feedback Questionnaire responses**

**1. Q.12 Lowest - Curriculum facilitates the overall holistic development of the student**
-Alumni disagree that The curriculum covers basic skills, but it didn't contribute much to my overall holistic development.

**2. Q.13 highest- (Q.13) Syllabus Curriculum has all the theory and practical components to make you employable**
Alumni agree that overall Syllabus Curriculum has all the theory and practical components to make you employable

**Suggestion received from Alumni Members**

1. Hands-on Learning through Internships.
2. The curriculum could include exchange programs or global projects to expose students to international perspectives and practices.
3. Some course content felt outdated; regular updates to align with technological and industry advancements would be beneficial.
4. The curriculum should consider student feedback more regularly, allowing for flexibility and adaptation to current student needs.
5. Focus on Innovation and Entrepreneurship.

➢ **Suggested action:**

1. Establish partnerships with companies to provide students with hands-on internship experiences integrated into the curriculum.
2. Develop exchange programs and global projects to enhance students' international exposure and understanding of diverse practices.

3. Implement a system for regularly reviewing and updating course content to ensure alignment with current industry trends and technologies.
4. Create a feedback mechanism that allows students to share their experiences and suggestions for curriculum improvements, ensuring adaptability.
5. Introduce innovation labs and entrepreneurship courses to encourage creativity and support students in developing their business ideas.
