Swarrnim Science College

Action Taken Report on Alumni Feedback 2022-23

➢ **Observations Based on the Alumni Feedback Questionnaire responses**

1. Q.12 Lowest - Curriculum facilitates the overall holistic development of the student -Alumni disagree that The curriculum covers basic skills, but it didn't contribute much to my overall holistic development.

2. Q.9 highest- (Q.9) Syllabus The courses taught inculcate lifelong learning and human ethics/values Alumni agree that overall courses content taught inculcate lifelong learning and human ethics/values

➢ **Suggestion received from Alumni Members**
1. Balanced Focus on Academics and Extracurricular.
2. The curriculum could include sessions focused on mental health, time management, and personal growth to better prepare students for both professional and personal challenges.
3. Interdisciplinary Learning.
4. Group projects and collaborative work should be emphasized more, as teamwork is crucial in professional environments.
5. Leadership and Decision-Making Skills.

➢ **Suggested action:**
1. Integrate structured extracurricular with academics for holistic growth.
2. Introduce workshops on mental health awareness, time management, and personal growth strategies to help students manage stress and build resilience for professional and personal life.

3. Offer interdisciplinary electives that combine subjects from different fields (e.g., technology and business) to broaden student learning and adaptability in diverse fields.
4. Increase group projects to build teamwork and communication skills.
5. Provide platforms such as student councils, clubs, and decision-making roles in projects to help students develop leadership and decision-making skills.
