Action Taken Report on Parents Feedback 2023-24

➤ Observations Based on the Parents Feedback Questionnaire responses

1. Q.10 Methods of evaluation are effective and transparent

(Internal and University exam grading system)- Parents disagree that The evaluation methods lack transparency and effectiveness. Grading criteria are unclear, and my child struggles to understand how grades are determined. Feedback is minimal, making it hard to identify areas for improvement. The system needs clearer guidelines and more transparency.

2. Q.1 highest- (Q.1) Do you adequate information about the curriculum/syllabus of the program where you ward is enrolled- Parents agree that The syllabus is well-structured and offers detailed insights into course content, objectives, and assessment methods. This transparency helps us understand what to expect and how to support our child's learning. Additionally, the emphasis on practical skills and industry relevance is commendable. Overall, I feel well-informed and confident in the educational pathway my child is pursuing.

Suggestion received from Parents:

1. Provide workshops on career planning, resume building, and interview skills to better prepare students for job opportunities after graduation.
2. Collaborate with more companies and industries to offer a wider range of internship programs that give students hands-on experience in their fields of interest.
3. Improve academic and personal counseling services to ensure students receive adequate support in managing both their studies and personal challenges.
4. Increase the inclusion of practical and hands-on learning opportunities, such as lab work, field projects, and real-world case studies, to complement theoretical knowledge.
5. Introduce industry-focused courses or certifications that provide students with skills and knowledge directly applicable to their future careers.
6. Establish regular communication channels between parents and faculty to discuss the progress and development of students.
7. Upgrade the university's technological resources, such as online learning platforms, labs, and digital tools, to enhance the learning experience in an increasingly digital world.
8. Support a wider variety of extracurricular activities and clubs, including those focused on leadership, entrepreneurship, and community service, to help students develop soft skills and expand their interests.

Action Taken Report on Parents Feedback 2023-24

➤ **Suggested action:**

1. Parents can request that the university organize workshops on career planning, resume building, and interview skills, highlighting the importance of preparing students for the job market after graduation.
2. Parents can connect with local businesses and industries to encourage partnerships with the university for internship programs, providing students with practical experience in their chosen fields.
3. Parents can collectively request that the university improve academic and personal counseling services, ensuring students have the support they need to balance both academic and personal challenges.
4. Parents can propose increasing hands-on learning opportunities, such as lab work, field projects, and real-world case studies, ensuring that the curriculum combines both theoretical and practical knowledge.
5. Parents can suggest that the university introduce industry-specific courses or certifications, emphasizing the importance of aligning education with current industry demands for future career readiness.
6. Parents can request the establishment of regular communication channels between parents and faculty, allowing for updates and discussions about their children's academic progress and development.
7. Parents can collaborate with the university administration to push for upgrades to technological resources, such as improving online learning platforms, lab equipment, and other digital tools, to ensure students have access to modern educational resources.
8. Parents can support the development of extracurricular programs, including leadership, entrepreneurship, and community service clubs, to help students gain soft skills and explore new areas of interest beyond academics.
