CIRCULAR FOR ADVANCED LEARNERS' ENRICHMENT PROGRAM (2023-2024)

Date: September 1, 2024

This is to inform all students that the **2023-2024 Advanced Learners' Enrichment Program** will officially begin on **September 1, 2024**.

The focus for this year's program includes:

- **Interactive workshops** on evidence-based physiotherapy practices, including advanced clinical interventions.
- **Research and presentation opportunities**, where students will prepare research papers and present them at national and international conferences, representing the institute.
- **Patient communication and clinical decision-making workshops** to enhance professional skills.
- **Sessions on global certifications**, preparing students for competitive exams and professional practice in international settings.

Report on Participation of Advanced Learners

(2023-2024)

Institution: Venus Institute of Physiotherapy

Academic Year: 2023-2024

In the academic year 2023-2024, the advanced learners at Venus Institute of Physiotherapy took part in various activities that were designed to expand their academic knowledge, clinical expertise, and community involvement. These students, selected based on their exceptional academic performance, participated in international and national conferences, specialized workshops, and community outreach programs that enhanced both their professional skills and their understanding of public health issues.

One of the key highlights of the year was the participation of advanced learners in both **national and international conferences**. These conferences allowed the students to engage with global and local experts in the field of physiotherapy, share their knowledge, and present case studies or research work on rehabilitation techniques. The international conference provided an excellent platform for the students to stay updated on the latest advancements in physiotherapy, while the national conference

helped them connect with professionals within India and understand the context of healthcare practices within the country. These events significantly contributed to the students' professional growth, offering them the opportunity to network and gain insights into emerging trends in physiotherapy.

In addition to conference participation, the advanced learners also had the privilege to attend an **International Osteopathy Workshop** conducted by a renowned international expert in osteopathy. This workshop focused on advanced manual therapy techniques, offering practical, hands-on training that deepened the students' knowledge of osteopathy principles. The international perspective brought by the expert helped the learners appreciate global standards of care and expand their therapeutic skill set, which will be beneficial for their future clinical practice. The workshop was especially valuable in enhancing their understanding of holistic patient care, integrating osteopathy into physiotherapy practice.

Another significant initiative was the students' involvement in a **Community Outreach Survey on Arthritis**, which aimed to assess the prevalence and impact of arthritis within local communities. The advanced learners took part in conducting surveys, interacting with affected individuals, and collecting data on the challenges faced by arthritis patients. This outreach

program not only enhanced their understanding of the socio-economic factors that influence health outcomes but also helped them apply theoretical knowledge in a real-world setting. The survey outcomes provided valuable insights that could be used to develop better strategies for arthritis management and rehabilitation within the community.

Outcomes of these activities have been overwhelmingly positive. Through their participation in conferences, the students gained exposure to cutting-edge research and innovative practices in physiotherapy, while also contributing to discussions at an international level. The osteopathy workshop equipped them with specialized skills that will enhance their ability to provide comprehensive care to their future patients. The community outreach survey on arthritis enabled them to directly interact with the population they will one day serve, reinforcing the importance of empathy and understanding in healthcare.

In conclusion, the 2023-2024 academic year was marked by the active participation of advanced learners in conferences, international workshops, and community outreach programs. These experiences not only enhanced their professional competence but also contributed to the institute's mission of producing knowledgeable, compassionate, and highly skilled

Physio Summit 2024

Parul University

Standard Operating Procedure (SOP)

1. Objectives.

Physio Summit 2024, a national level physiotherapy fest organized and hosted by Faculty of Physiotherapy at Parul University, is the university's contribution to the ever-growing sector of physiotherapy. The fest aims to provide students with a platform to connect and grow their practical skills and compete in a competitive environment. With numerous competitions for students to test their skills all over - like case studies, model making, and interactive sessions with the biggest names in the world of Physiotherapy, PhysioSummit 2024 aims to provide students with excellence and draw inspiration from all nooks and corners of the physiotherapy world

2. Summit Overview

1. Theme of Physio Summit 2024 was IGNITING MOVEMENT, INSPIRING WELLNESS

2. Date : 05/01/2023 & 06/01/2023

Venue – Parul University, Vadodara

Brief Outline

On January 5, 2024, the Physiotherapy department faculty, including Dr. Hardik Sheth sir (principal sir), Dr. Jaynesh Vandra, Dr. Darshi Shah, and Dr. Kosha Gor, along with 62 students, actively participated in a noteworthy physiotherapy summit 2024 at parul university vadodara. Prior to the summit, Dr. Hardik Sheth sir and Dr. Jaynesh played pivotal roles in arranging accommodation for both students and faculty from Swarnnim University to Vadodara, ensuring a smooth and cohesive experience.

The summit commenced at 9 am with registration and inauguration. The event featured esteemed national and international speakers, including Professor Karim Khan from Canada, and other speakers who conducted an insightful online session. Following the sessions, a lunch break was scheduled from 1 to 2 pm, creating opportunities for networking and discussions.

As the day progressed, cultural events were organized in the evening, adding a vibrant touch to the summit. The second day of the summit focused on sessions led by national speakers, sharing valuable knowledge. Additionally, MPT students presented their poster presentations, showcasing their research and contributions to the field.

In the evening, the summit concluded with a celebration of the achievements of Swarnnim University, providing a platform to highlight the accomplishments within the physiotherapy department.

PHYSIOTHERAPY WEEK (DAY 2)
COMMUNITY OUTREACH/ SURVEY

SOP of Program:

Objective:

To assess the prevalence, risk factors, and healthcare needs related to arthritis in Dhanod

Survey questionnaires

Data collection devices (smartphones, tablets, paper forms)

Maps of the village

Personal protective equipment (if applicable)

Consent forms

Recording and storage equipment (laptops, hard drives)

Procedure:

1. Project Planning:

Define the objectives of the survey.

Identify the study population (e.g., all adults in the village).

Determine the sample size required for statistical significance.

Create a survey questionnaire that includes questions about arthritis symptoms, medical history, lifestyle, and demographics.

Develop a sampling strategy (random, stratified, etc.).

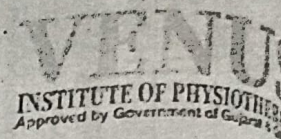

2. Ethical Considerations:

Obtain ethical approval for the survey from the relevant authorities.

Develop informed consent forms for participants.

Ensure data privacy and confidentiality.

3. Data Collection:

Train the survey team on the survey procedures, questionnaire administration, and ethical considerations.

Identify and engage with local community leaders and health workers to gain their support and assistance.

Conduct door-to-door surveys within the village.

Use the survey questionnaire to collect data from participants.

Ensure accurate record-keeping and data collection.

4. Data Analysis:

Enter collected data into a database or spreadsheet.

Perform data cleaning and validation.

Analyze the data to determine arthritis prevalence, risk factors, and other relevant insights.

Generate descriptive statistics and conduct statistical tests as needed.

5. Reporting:

Create a comprehensive report summarizing the survey findings.

Include tables, charts, and graphs to visualize the data.

Interpret the results and draw conclusions.

Provide recommendations for healthcare interventions or further research.

6. Community Feedback:

Share the survey results with the community in a clear and understandable manner.

Seek feedback from community members on the findings.

Engage in discussions about possible interventions or support services for arthritis management.

7. Documentation and Archiving:

Maintain all survey-related documents, including consent forms, questionnaires, and data records.

Archive the data for future reference and research.

8. Follow-Up:

Consider conducting follow-up surveys to monitor changes in arthritis prevalence and the effectiveness of interventions.

9. Dissemination:

Share the survey findings with relevant healthcare authorities, organizations, and stakeholders for potential action.

CIRCULAR FOR ADVANCED LEARNERS' ENRICHMENT PROGRAM

(2022-2023)

Date: October 10, 2023

We are pleased to announce that the **2022-2023 Advanced Learners' Enrichment Program** will commence on **October 10, 2023**, for students identified as top performers.

This year's activities will focus on:

- **Skill-based workshops** in musculoskeletal physiotherapy and electrotherapy.
- **Student-led poster presentations** on advanced rehabilitation techniques.
- **Representation at international physiotherapy conferences**, where students will have the opportunity to network, learn, and present their work.
- **Career mentorship programs**, offering insight into professional development and advanced certifications in physiotherapy.

The program will continue until **November 25, 2023**, and attendance is required for all selected learners.

Report on Participation of Advanced Learners (2022-2023)

Institution: Venus Institute of Physiotherapy

Academic Year: 2022-2023

Introduction

During the academic year 2022-2023, advanced learners at Venus Institute of Physiotherapy demonstrated remarkable commitment and engagement across various activities. This report outlines their achievements and participation in free camps, conferences, and other initiatives, culminating in their recognition as Best Performers of the Year on Foundation Day.

Key Achievements and Recognitions

Best Performers of the Year

On Foundation Day, our outstanding students from the Bachelor of Physiotherapy (BPT) and Master of Physiotherapy (MPT) programs were honored for their exceptional contributions and achievements:

1. Best Performer in BPT:

o Achievements:

- Outstanding academic performance.

- Significant involvement in practical sessions and community service.
- Active participation in national and international conferences.

2. Best Performer in MPT:

◦ Achievements:

- Exemplary research and clinical skills.
- Notable contributions to field development and community outreach.
- Distinguished representation at major conferences.

Participation in Free Camps and Field Development

Our students made substantial contributions by participating in multiple free camps and community service initiatives. Their involvement included:

- **Conducting Free Health Camps:** Providing physiotherapy services to underserved populations, enhancing their practical skills and community engagement.
- **Field Development Activities:** Gaining hands-on experience through various practical sessions, which

supported their academic learning and professional development.

Engagement in Conferences

Advanced learners also showcased their expertise at several national and international conferences:

- **National Conferences:** Delivered presentations, engaged in workshops, and contributed to discussions on current physiotherapy practices and research.
- **International Conferences:** Represented the institution globally, shared innovative research findings, and gained exposure to international standards and practices in physiotherapy.

Outcomes and Impact

The participation of our students in these activities led to several positive outcomes:

1. **Enhanced Practical Skills:** The hands-on experience from free camps and field activities significantly improved their practical skills and clinical proficiency.
2. **Increased Institutional Visibility:** Their involvement in national and international conferences elevated the profile of our institution and showcased our commitment to global standards in physiotherapy.

3. **Professional Development:** The experiences gained through these activities contributed to the students' overall professional growth, preparing them for future challenges and opportunities in their careers.
4. **Community Impact:** The free camps and community service efforts had a positive impact on the local communities, improving access to physiotherapy services and raising health awareness.

Conclusion

The academic year 2022-2023 has been marked by notable achievements and active participation from our advanced learners. Their recognition as Best Performers, combined with their involvement in free camps and conferences, reflects their dedication and the high standards of our educational programs. These activities not only enhanced their personal and professional development but also contributed significantly to the broader community and institutional prestige.

We anticipate continued excellence and look forward to supporting our students in their future endeavors.

Free Physiotherapy Camp at Shantiniketan Vriddhashram, Adalaj.

Name and Type of Event/Activity	Free Physiotherapy Camp
Organized by:	Venus Institute of Physiotherapy
Department	Physiotherapy Department
Name of Students	Yartik Dholariya, Prince Kumavat
Time	9:00 A.M Onwards
Venue	Shantiniketan vriddhashram, Adalaj.

Brief outline addressed camp:-

On 2nd May 2022, Venus Institute of Physiotherapy had Organized Camp at Shantiniketan vriddhashram, Adalaj. Timing for this camp was 9:00 A.M onwards at morning. Health science department of Swarnnim University gave free treatment to the patient. The aim of organizing these camp to give treatment to those people who live in our community really need treatment.

From Venus Institute of Physiotherapy Department Yartik Dholariya and Prince Kumavat (Student of 3rd BPT) went for this camp to treat patient. Total 50 number of patients were attend these camp they discussed their problem with our Students. Most of the patient In Physiotherapy department came with neck pain- due to muscle strain, overuse injury and with nerve compression, back pain- due to degenerative changes and/or ligament sprain and with knee pain- due to ageing, repetitive stress on knee joint or injury problems.

Our Students assessed them then also gave them exercise and Home exercise. Also told them about do's and don'ts for particular condition, we also gave them addressed of our physiotherapy department so when they need they can come for treatment follow up.

Patients found this camp beneficial and were looking for more such camp.

Report on Participation of Advanced Learners
(2021-2022)

Institution: Venus Institute of Physiotherapy

Academic Year: 2021-2022

During the academic year 2021-2022, advanced learners at Venus Institute of Physiotherapy actively participated in a variety of high-level educational and outreach activities in alignment with the directives outlined in the circular. These students, selected based on their exceptional academic performance and active involvement, engaged in significant professional development activities that broadened their knowledge and skills in physiotherapy.

One of the standout activities of the year was the participation in both **National and International Conferences**. The **National Conference** offered an opportunity for students to engage with leading physiotherapy professionals within the country. Through this conference, the students were exposed to the latest therapeutic techniques and rehabilitation methods being used in India, while also participating in discussions on evolving healthcare practices within the national context. They were able

to connect with practitioners and gain insights into how physiotherapy is evolving in the domestic healthcare system.

In addition, the advanced learners participated in an **International Conference** that gave them exposure to global advancements in physiotherapy. This international platform provided them with the opportunity to learn about cutting-edge research and rehabilitation practices from experts worldwide. Engaging with international professionals broadened their perspectives and equipped them with knowledge of global trends, which they could integrate into their future practice. This experience helped solidify their understanding of physiotherapy as a global profession and reinforced the importance of staying updated with international standards and methods.

The students also had the opportunity to attend an **International Osteopathy Workshop** conducted by an expert from abroad. This workshop focused on osteopathy techniques, a specialized manual therapy approach that emphasizes the body's self-healing capabilities. The workshop allowed students to receive hands-on training from an international expert, enhancing their skill set in osteopathic methods, which they can apply in their clinical practice. This advanced workshop provided them with practical experience in managing musculoskeletal disorders and understanding the holistic nature of osteopathic treatment.

Additionally, the advanced learners were deeply involved in a **Community Outreach Survey on Arthritis**, an important public health initiative aimed at assessing the prevalence and impact of arthritis within local communities. The students actively participated in this outreach by conducting surveys, interacting with arthritis patients, and collecting data on their challenges. The data gathered during this outreach program will be used to propose community-based solutions and improve rehabilitation techniques for arthritis patients, thus allowing the students to directly apply their knowledge in real-world settings. This community engagement also strengthened their communication and empathy skills as they interacted with patients from various backgrounds.

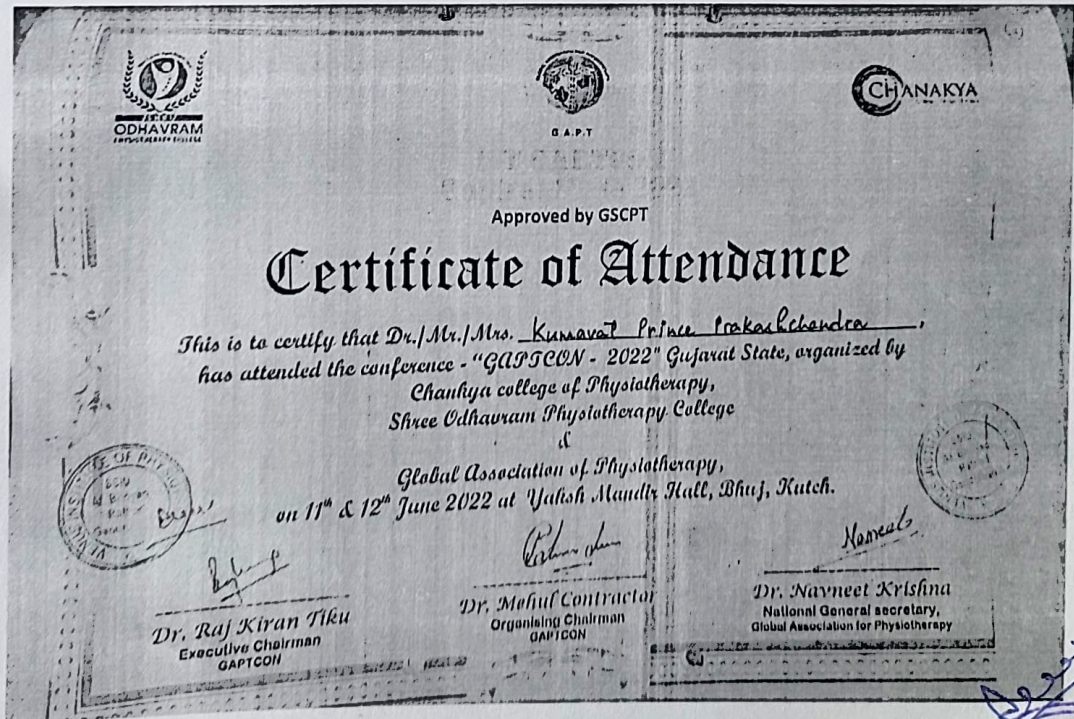

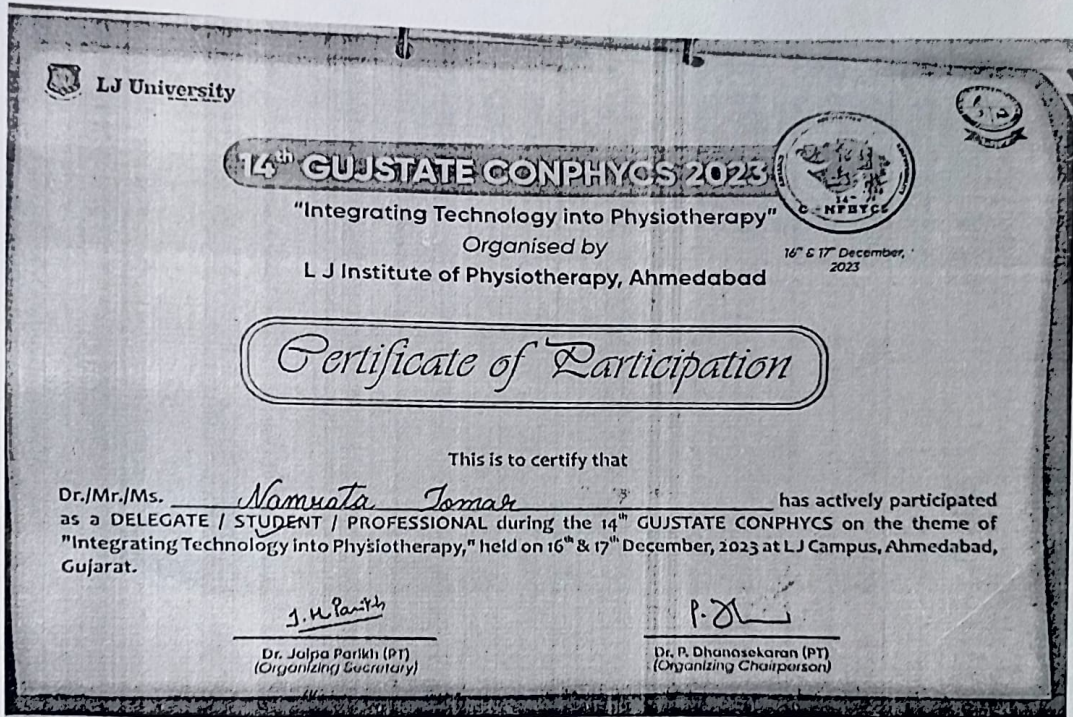

Outcomes from these activities were highly impactful. The conferences—both national and international—offered the students invaluable insights into the latest clinical and rehabilitation techniques, contributing to their overall academic growth. The international osteopathy workshop significantly enhanced their manual therapy skills, making them more competent in handling musculoskeletal conditions. Meanwhile, the community outreach survey on arthritis not only raised awareness about the condition but also allowed the students to contribute meaningfully to local healthcare initiatives. The combined effect of these activities was an increase in the students'

practical knowledge, global awareness, and ability to engage in community healthcare efforts.

In conclusion, the academic year 2021-2022 was marked by the active participation of advanced learners from Venus Institute of Physiotherapy in conferences, international workshops, and community outreach programs. These activities greatly contributed to their academic and professional development, preparing them to become well-rounded physiotherapists who can apply both global and local knowledge in their practice.

SEMINAR ON ICU MANAGEMENT WITH BASICS OF ECG AND
VENTILATORY MODES

Name and Type of Event/Activity	Seminar on ICU Management
Organized by:	Venus institute of Physiotherapy
Department	Physiotherapy Department
Name of Doctor	Dr. Shivam Acharya
Time	2:00 P.M – 4:00 P.M
Venue	Seminar Hall, Swarnnim Start up and Innovation University.

Brief outline Addressed in Seminar:-

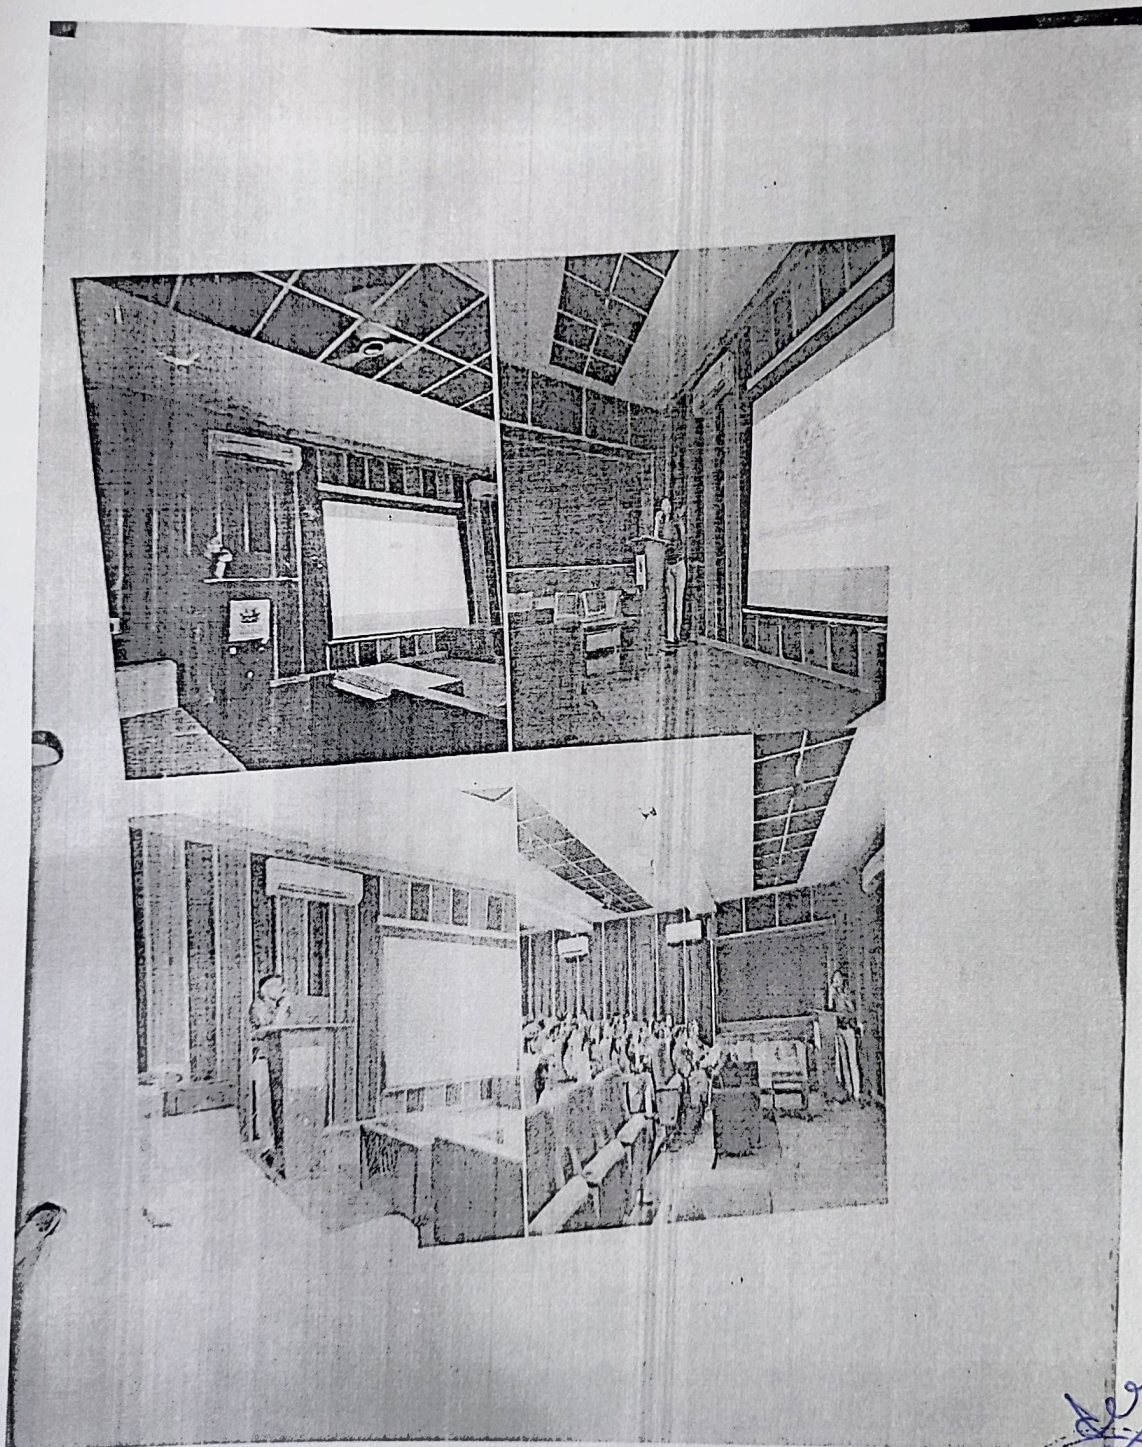

On 27th April 2022, Venus Institute of Physiotherapy had Organized Seminar at Seminar Hall in Swarnnim Start up and Innovation University. Timing for this Seminar was 2:00 P.M - 4:00 P.M. Dr. Shivam gave Lecture on ICU Management with Basics of ECG and Ventilatory Modes. The aim of organizing these Seminar to give quality knowledge to those people who will do their duties in various hospitals and ICU's in Further Future.

He Explain each and everything in detail with live examples. This session was more interactive and he has given answers of all students query. He has covered all the basic details regarding ICU, ECG and Ventilatory modes.

All the Students of Venus Institute of Physiotherapy were present and they attended that seminar nicely. He appeals to all the students to do such practice of interpretation of ECG regularly.

CIRCULAR FOR ADVANCED LEARNERS' ENRICHMENT PROGRAM
(2020-2021)

Date: November 18, 2021

In accordance with university policies, the **2020-2021 Advanced Learners' Enrichment Program** will begin on **November 18, 2021**.

This year's focus will be:

- **Advanced physiotherapy workshops**, focusing on sports injury rehabilitation and neurological physiotherapy techniques.
- **Research presentations and group discussions**, allowing students to showcase their findings and refine their critical thinking skills.
- **Participation in virtual and in-person conferences**, with opportunities to present posters and case studies, representing the institute.
- **Guidance on professional certifications** and research publications for further academic growth.

Report on Participation of Advanced Learners

(2020-2021)

Institution: Venus Institute of Physiotherapy

Academic Year: 2020-2021

During the academic year 2020-2021, advanced learners at Venus Institute of Physiotherapy actively participated in a diverse range of activities, reflecting their commitment to both academic excellence and community awareness. Their involvement spanned across slogan-making and poster-making competitions, virtual quiz competitions, research projects, and hands-on workshops, demonstrating their engagement in both creative and practical aspects of physiotherapy.

In alignment with the observance of *World No Tobacco Day* on May 31, 2021, the students participated in a **Slogan Making Competition** aimed at raising awareness about the dangers of tobacco use. The advanced learners crafted impactful slogans that were widely disseminated within the institute and beyond. The slogans successfully conveyed critical health messages, contributing to a heightened awareness of tobacco-related health risks among the student body and the wider community.

Complementing this effort was a **Poster Making Competition**, where students designed informative posters addressing various health topics, including anti-tobacco campaigns. Due to the ongoing pandemic, the students also delivered virtual presentations of their posters. These presentations allowed them to explain their designs and the underlying health messages effectively. The creative and educational quality of the posters not only enhanced the visibility of health issues but also fostered a deeper understanding of preventative health measures among their peers.

Advanced learners also engaged in **research work** related to their projects, focusing on health promotion and the impacts of tobacco use. This research was integrated into their presentations and helped ground their creative outputs in scientific evidence. Their findings contributed to a broader understanding of health issues and demonstrated the practical applications of their research in real-world scenarios.

The **Virtual Quiz Competitions** were another platform where the students showcased their knowledge and competitive spirit. These quizzes tested their understanding of physiotherapy concepts and health education, further reinforcing their academic learning and quick thinking in a virtual format.

Additionally, students participated in a **Tapping Workshop**, which provided hands-on experience in advanced physiotherapy techniques. This workshop was essential in developing their practical skills and understanding of therapeutic interventions. The experience gained from this workshop was valuable for their clinical practice and future professional roles.

Outcomes of these activities were highly positive. The advanced learners' participation in the slogan and poster competitions, along with their research efforts, led to increased awareness about tobacco-related health issues and promoted a healthier lifestyle among the institute's community. Their virtual quiz achievements demonstrated their academic proficiency and adaptability to online learning environments. The tapping workshop enhanced their practical skills, preparing them for real-world physiotherapy challenges.

Overall, the advanced learners' engagement in these activities not only enriched their educational experience but also contributed significantly to public health awareness and their professional development. Their efforts exemplify the institute's commitment to fostering well-rounded, socially responsible, and skilled future physiotherapists.

❖ Brief outline addressed in the event:

Venus Institute of Physiotherapy celebrated World Arthritis Day on 12th October 2020. On this Day Institute organized a webinar on Advance Research in Physiotherapy Management of Arthritis on the occasion of World Arthritis Day by Dr. Ankit Sinha under the guidance of our respected Principal sir Dr. Arvind Chauhan. This webinar was organized on 12th October 2020 at 10:00 AM to 12:30 AM. Webinar was started with the welcome note given by the Dr. Sanjeeta Khatri.

"Arthritis is a common condition that cause pain and inflammation of the joints and bones. The main symptoms of arthritis include pain. It is the most common condition in all over the world and it affects more than 10 million cases in India per year. It mainly affects older age people but nowadays it affects adults as well as young adults also, addressed by our Respected Principal Sir.

Additionally, Our Chief Guest and expert lecturer Dr. Himani Swami explained very well about Physiotherapy management of Arthritis patients and various available recent form of treatment techniques which is based on the Advance research. During the session we had almost

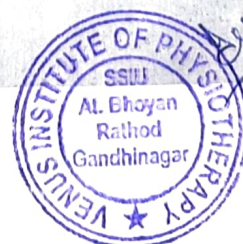

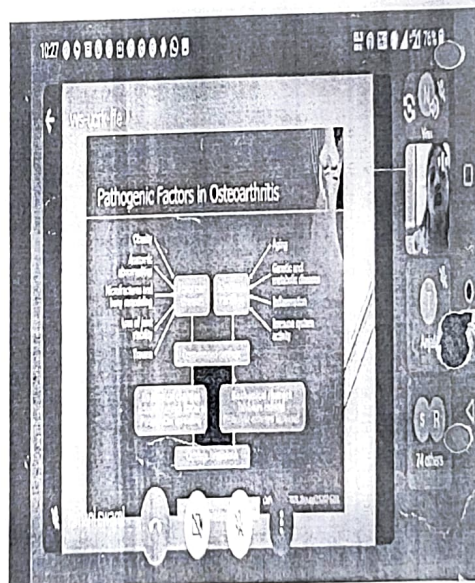

70+ participants who were quite excited about the session. Among the participants we had all the students of Physiotherapy College and the staff of swarnnim University.

Dr. Himani Swami was overwhelmed by the huge response she received from the people of swarnnim. At the end of the session students asked various questions from the expert, which she answered very patiently. The event was carried by Dr. Heena Shekh with the vote of thanks and by that the session was come to an end.

In continuation of the event, students actively participated in Collage Competition on "Lifestyle Modifications". Where they have to make Collage from old newspapers and magazines and then they have to present it for 1 -2 minutes. The event was a successful and students were given the positive feedback and were looking forward to the similar session like this in near future.

Organized by:	Swarnnim Start up and Innovation University
Department	Venus institute of Physiotherapy
No of participants	50 + students
Time	3:00 PM - 5:00 PM
CO-Ordinator	Dr. Tanvi Vyas

Brief outline addressed in the event:

Every year, World No Tobacco Day is observed in order to spread awareness of the dangers of consuming tobacco. People around the world want to get rid of this tobacco pandemic and claim their right to healthy living in order to protect their future generations. So, the World Health Organization (WHO) created World No Tobacco Day in 1987 to draw global attention to the tobacco epidemic and the preventable diseases and death it causes. In 1988, the World Health Assembly passed a resolution calling for the celebration of World No tobacco day, every year on 31 May.

The theme for World No Tobacco Day 2021 is "Commit to Quit", which is asking millions of tobacco users to quit tobacco in the Covid-19 pandemic and sign a pledge to commit to quit today. In order to spread awareness of tobacco Venus Institute of Physiotherapy had organised various Competitions to celebrate World No Tobacco Day from 25th May 2021 to 31st May 2021.

Report on Participation of Advanced Learners
(2019-2020)

Institution: Venus Institute of Physiotherapy

Academic Year: 2019-2020

In the academic year 2019-2020, advanced learners at the Venus Institute of Physiotherapy were actively involved in a variety of professional and skill-enhancing activities. These students, identified based on their consistent academic performance, demonstrated their dedication to both the field of physiotherapy and their personal development through participation in startup initiatives, conferences, and hands-on workshops.

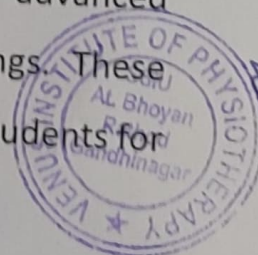

One of the major areas of involvement for these advanced learners was participation in startup and entrepreneurial activities, particularly in the realm of healthcare innovation. The students took part in various university-hosted startup events, presenting innovative ideas for physiotherapy tools and devices aimed at improving patient rehabilitation outcomes. Their projects included the development of affordable technologies such as mobile applications for patient monitoring and home based physiotherapy devices. These activities not only fostered

creativity and problem-solving skills but also nurtured an entrepreneurial mindset, positioning these students as future innovators in healthcare.

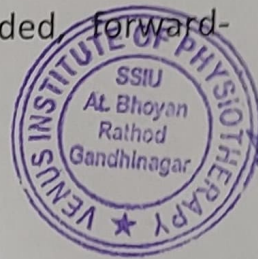

Additionally, the advanced learners took the initiative to represent the institute at various national conferences and workshops, where they actively participated in discussions and presentations. These learners had the opportunity to attend sessions on advanced rehabilitation techniques and emerging trends in physiotherapy, allowing them to expand their knowledge beyond the classroom. Their participation in these events helped them gain insights into the latest practices in physiotherapy and network with industry professionals and experts. This engagement was a testament to their ambition to stay updated on the global developments in their field.

Furthermore, these learners participated in specialized workshops focused on enhancing their clinical skills. The workshops offered hands-on training in areas such as manual therapy, postural correction, and neuro-rehabilitation. This practical exposure complemented their academic learning, equipping them with the necessary skills to apply advanced therapeutic techniques in real-world clinical settings. These workshops played a significant role in preparing the students for

future challenges in the physiotherapy profession, helping them gain confidence in their practical abilities.

In summary, during the 2019-2020 academic year, the advanced learners at Venus Institute of Physiotherapy showed exceptional dedication through their participation in startup initiatives, conferences, and skill-building workshops. Their active involvement in these activities helped them to not only enhance their professional capabilities but also contribute to the institute's reputation for producing well-rounded, forward-thinking physiotherapists.

Startup Activity Report

❖ Date of event: 07/11/2019	❖ Coordinator Or. Ankit Sinha
❖ Name and Type of Event/Activity	❖ Light, Camera, Entrepreneur
❖ Organized by:	❖ SSIP Cell Swarnim & SSIP Cell, Govt. of Gujarat
❖ Department	❖ Venus Institute of Physiotherapy
❖ No of participants	❖ 25
❖ Facilitator	❖ Swarnim Incubation Centre

❖ Brief outline addressed in the event:

Venus Institute of Physiotherapy has organized its Second Start-up activity "Light, Camera, Entrepreneur". As the part of their mandatory curricular activity the school of physiotherapy has organized the above mentioned activity. The Briefing, Guidelines, rules and regulation, do's and don'ts, were told to all the student on Friday (06/12/2019) and ask to perform the activity over the weekend break i.e. on Saturday and Sunday. The Students were quite excited. Most of them performed the activity on Saturday itself, by booking the appointment prior to the interview. The whole batch was divided into 5 Group and each group consists of 5 members. These 5 groups went to various different places for the activity. Preference was given to the Entrepreneur's who are specialist in the same filed. The students design their own set of question as recommended in the rule book. They finally shot the video of at least 5 min in the camera. All the students finish their activity before the given time frame, as they all were self-motivated. On Monday they have given the Presentation on the same and showed their video to the co-coordinator. All the video was converted into the link and shared on the Google drive link for the use of University.

❖ Objective of the Event

The objectives of the event were to let the student know more about entrepreneur, to make them understand how it works and to motivate them.

❖ Significance/ Outcome

Student took active part in the activity, they were quite happy and few also planned and thinking about such type of start-ups.

❖ Conclusion

The activity was fruitful; students were happy and enthusiastic to meet such a wonderful and successful people.
