Dear Dr Parwathi Pillai,

Greetings from Gujarat Student Startup & Innovation Hub (i-Hub)!

We are delighted to inform you that your Startup/Innovation - **Low Cost Fluoride Removal Cartridge From Ground Water has been recommended** by the Final Approval Committee under the Startup Srujan Seed Support (S4) Programme, which aims to support innovators and startups to avail grants up to INR 10 Lakhs for the product development.

A total grant of **INR ₹2,50,000/-** has been provisionally sanctioned for your startup/innovation. For the same, you are required to comply with the guidelines provided for the utilisation of the grant for the above purpose. i-Hub will give the best possible support through various flagship programs and support systems.

If you have any queries, please feel free to contact us.

Best Regards,
Team i-Hub
