## "Understanding PCOS and PCOD: Empowering Women's Health"

<b>Name of event</b>	<b>"Understanding PCOS and PCOD: Empowering Women's Health"</b>
<b>Date of event</b>	07-02-2019
<b>Coordinator</b>	Dr. Archna Pandey
<b>Organised by</b>	Swarnnim Science College
<b>Time</b>	10:00AM – 12:00PM
<b>Venue</b>	Swarnnim Science College
<b>Reporter's Name</b>	Dr. Hemant Chaube

On 7 february 2019, Swarnnim Science College hosted a seminar titled "Understanding PCOS and PCOD: Empowering Women's Health," which garnered a substantial turnout of students eager to grasp the complexities of these prevalent health conditions. The lecture delivered by Dr. Hardiksinh & the event coordinator is Dr. Archna Pandey. The seminar featured an external faculty member renowned for expertise in genecology and endocrinology, who delivered a comprehensive presentation on Polycystic Ovary Syndrome (PCOS) and Polycystic Ovarian Disease (PCOD).

PCOS, a hormonal disorder affecting many women of reproductive age, was a focal point of discussion. The seminar elucidated its hallmark symptoms, including irregular menstrual cycles, elevated androgen levels, and the formation of small cysts on the ovaries. These symptoms often lead to challenges such as fertility issues, weight gain, acne, and excessive hair growth. Moreover, the session emphasized the broader health implications of PCOS, such as insulin resistance, type 2 diabetes, and cardiovascular risks, underlining the importance of early detection and management strategies.

The discussion also addressed PCOD, historically synonymous with PCOS but focusing specifically on the ovarian cysts associated with the condition. Attendees gained valuable insights into the diagnostic methods and treatment options available for both PCOS and PCOD, including lifestyle modifications like diet, exercise, and stress management. The external faculty member stressed the significance of proactive healthcare practices in managing these conditions effectively and enhancing overall well-being.

The seminar at Swarnnim Science College served as a pivotal educational platform, equipping students with essential knowledge to empower themselves and others in understanding and addressing the complexities of PCOS and PCOD. It underscored the importance of awareness and

early intervention in promoting women's health, inspiring attendees to take informed steps towards maintaining their reproductive health and overall quality of life.

## Conclusion

The seminar on "Understanding PCOS and PCOD: Empowering Women's Health" at Swarnim Science College was a pivotal educational event that effectively educated a diverse audience of students. Led by an expert in gynecology and endocrinology, the seminar provided comprehensive insights into PCOS and PCOD, covering symptoms, diagnostics, and treatment options. Emphasizing proactive healthcare through lifestyle adjustments highlighted the importance of early detection and holistic management strategies. By promoting awareness and informed decision-making, the seminar empowered attendees to advocate for women's health and foster supportive communities. Swarnim Science College's initiative contributes significantly to preparing future healthcare professionals and raising awareness about these prevalent conditions

<b>Name of event</b>	<b>"Empowerment through Defense: Women's Safety and Self-Defense Workshop"</b>
<b>Date of event</b>	03-09-2019
<b>Coordinator</b>	Dr. Archna Pandey
<b>Organised by</b>	Swarnnim Science College
<b>Time</b>	10:00AM – 12:00PM
<b>Venue</b>	Swarnnim Science College
<b>Reporter's Name</b>	Ms. Hemali Kachadiya & Ms. Ankita Kanetiya

On September 3, 2019, Swarnnim Science College organized a seminar titled "Empowerment through Defence: Women's Safety and Self-Defense Workshop," which garnered enthusiastic participation from all students and faculty members. The Powerful session Delivered by Ms. Kinjal Mehta and workshop coordinator is Dr. Archna Pandey. The seminar aimed to empower attendees with essential skills and knowledge to enhance women's safety and confidence through self-defence techniques.

The event featured a skilled karate master who conducted comprehensive training sessions. Students and faculty attentively participated in learning practical self-defense maneuvers tailored to real-life situations, emphasizing techniques to fend off potential threats and protect oneself effectively. The training covered various scenarios, including physical confrontations and verbal aggression, equipping participants with the confidence to react assertively and safeguard their personal safety.

The seminar also included informative sessions on understanding situational awareness and strategies for preventing and de-escalating conflicts. Participants engaged actively in discussions, sharing insights and concerns related to women's safety both on and off-campus. The emphasis on proactive measures, such as awareness of surroundings and assertive communication, resonated strongly with attendees, fostering a sense of empowerment and preparedness.

Overall, the seminar on "Empowerment through Defense: Women's Safety and Self-Defense Workshop" at Swarnnim Science College was a resounding success. It not only provided practical self-defense skills but also promoted a culture of empowerment and solidarity among students and faculty. The event underscored the college's commitment to equipping its community with the tools and confidence needed to navigate personal safety challenges effectively.
