# INTRODUCTION

As we embrace the advancements in technology, the need for a more efficient examination process has become increasingly important. This manual serves as a comprehensive guide to our newly implemented exam automation system, designed to enhance the overall exam experience for students and faculty alike.

The primary objective of this automation is to streamline various aspects of the examination process, from scheduling and administration to grading and feedback. By minimizing manual tasks and reducing the potential for errors, we aim to create a more efficient and user-friendly environment.

In this manual, you will find detailed instructions on how to navigate the automated system, including the creation and management of exams, as well as guidelines for students on accessing their exam materials. We also address common challenges and provide solutions to ensure a smooth transition to this new system.

Our commitment to innovation in education drives us to adopt these technological solutions, ultimately aiming for a fair and transparent examination process. We hope this manual will serve as a valuable resource as we move toward a more modern approach to assessments.

It is organized into three sections as follows.

1. Student Portal
2. Faculty Portal
3. Examination Portal

## Topic: To view subject topic in session Plan

The screenshot displays the 'Session Plan Chapter Topic List' interface. The left sidebar contains navigation options: Master Data, Session Planner (5), Chapter, Topic (selected), Session Plan, Assessment Plan, Experiment Marks, Reports, and Excel Upload Utility. The main content area shows a table with columns: Actions, Institute, Program, Semester, Class, Subject, Subject Code, Subject Type, Chapter Name, and Topic Name. The table lists three entries for 'Operating System' in Semester III, Second Year-A, under the program 'B. SC. - IT Honours (NEP)'. Each entry has 'Edit' and 'Delete' links. The top right of the table has 'Delete All' and 'Add New' buttons. The bottom of the page shows a Windows taskbar with various application icons and system information.
